San Francisco Well Thought of in the East for the Convention.

San Francisco, Nov. 2.-Lewis G. Stevenson, of Bloomington, Ill., son of Vice-President Stevenson, arrived today and brought with him some encoursging news of the convention fight.

"I heard considerable talk of San Francisco's fight for the Republican convention before I left Chicago, and I sonally, I would be delighted to see the convention held here. A few years ago I passed a winter in California, and I have been in love with the state ever since. The meeting of one or both of the big conventions in San Francisco would do California a lot of god, for all that is necessary to win friends for the state is to show people what a glorious country you have here. If one of the national conventions met here, all the delegates would advertise California as long as they

Tacoma, Oct. 31. - Ex-City Treasurer George W. Boggs, who was arrested this afternoon in Medford, Oregon, by Sheriff Parker, of this county, was arrested on two warrants, sworn out late Saturday night by Mayor Orr. The arrest results from the investigation following the recent bank failures, which disclosed more fully than was known before the transactions of Boggs while city treasurer. He cashed warrants, as they were issued, with city funds, instead of calling in old ones. Before he went out of office, he placed warrants, said to amount to \$212,000, in various banks, receiving credit for them as cash. These banks have since failed, the city losing the deposits, less uncertain future dividends.

One warrant charges Boggs with larceny by embezzlement of \$109,000; the second with unlawfully using he should place Ashantee under the \$180,000 for a purpose not authorized by law. Boggs was tried on a charge similar to the first one in September, 1894, and was acquitted. He readily gave himself up on hearing that he was wanted. The sheriff and his prisoner will arrive here tomorrow at 5

PENSION REPORT.

Commissioner Lochren Makes Severa Pointed Suggestions.

Washington, Oct. 31,-Commissioner Lochren, of the pension office, in his annual report, makes several pointed suggestions. Under the head of "Patriotim and Pensions," he says:

"Those men who enlisted early and fought the battles of the war were not

moved by mercenary considerations, and unless actually disabled, did not show the haste in applying for pensions manifested by those who enlisted near-er the close of the war for large bounties and did little actual service, and who are now the noisiest in clamoring for more pensions. As compared with this latter class, the real soldiers have been modest in preferring claims for

pensions." The commissioner says that many disreputable and incompetent men are engaged as pension attorneys, and he suggests that none but reputable men be allowed to practice in pension cases. Dishonest attorneys have given much trouble by systematic criminal and fradulent practices. Pension payments, the commissioner says, bring large amounts of money into communities, and the fear that the conviction of these attorneys will lessen the influx of Considerable money is supposed to money has shaped itself in popular have been buried in a certain location rancor against the special examiners, in Marshfield, Or., and search was whose investigations have secured the conviction of criminials. SUPREME AUTHORITY

The Status of Indian Agents and Police.

DECISION BY JUDGE SHIRAS

The Agenta Have All the Authority of the Government and Can Punish Those Who Resist Them.

Lincoln, Neb., Oct. 31 .- Judge Shiras has rendered an importat decision in the case of the Flournoy Land Company against the Indians. Sheriff Mullen, of Thurston county, had been indicted for assaulting and obstructing Indian police while engaged, by order of Agent Beck, in ejecting the tenants of the land company from Winnebago reservation. The court refused to quash the indictment. William Garrett and J. F. Myers were arrested for assaulting the Indian police in the discharge of a similar duty. They sought re-lease on habeas corpus. The writ was refused. The judge considered two cases almost identical, and held that the Indian agent was an officer of the United States, and that the Indian policemen, acting on his orders, could exercise all the authority of the government, and parties resisting their authority should be punished as provided. Though the Indians had taken land in severalty, the title still remained in the United States, and the agent had authority to enforce his orlers and evict trespassing tenants. Until this decision is reversed or modified, the authority of the Indian agent is supreme, and the land company stands defeated at every point.

He thought, however, it would be the general desire not to have the convention meet until after the adjournment of congress, and he did not think it probable that congress would be ready to adjourn until about the middle of It was a fair inference, he concluded, that the convention would not be called to meet earlier than the last
