A very pretty wedding occurred at the M. E. church in this city, Wednesday evening, at 8 o'clock, in which Mr. Harry Dunn and Miss Anna McLouth were the contracting parties, Rev. Starr, officiating. They were the recipients of many handsome presents. The Observer joins with the many friends of the young couple in wishing them happiness.

Yesterday's train pulled out with 484 bales of hops raised in the vicinity of Dallas, part of them sold at from 6 to 6 1/2 cents and the balance consigned to London.  
Last Saturday Wm. Savage told us that forty-nine years ago that day there was a big rain after a long dry spell. Perhaps no other man in the county is so well posted on back dates and occurrences.  
Last week J. J. Williams cut down the big oak tree in front of his residence and in its heart a foot from the surface and eight feet from the ground found a wagon nut. The tree has doubled in diameter since he moved to Dallas twenty-one years ago.

A party of thirteen went out Monday to work out subscriptions on the Rock Creek road. E. B. Fann directs the work and a large quantity of provisions were hauled in by Wm. Alderman and his mules. Irving Wilkes is cook and the road is being made westward from Suitor's mill to join with the party of Rock Creekers, who under the directorship of A. Porter are on their way eastward.—Falls City Correspondent.

**A Remarkable Announcement.**  
A brief paragraph can hardly do justice to the interesting announcements which The Youth's Companion makes for the coming year. Not only will some of the most delightful story-writers contribute to the paper, but many of the most eminent statesmen, jurists and scientists of the world. No fewer than three cabinet Ministers are announced, among them being the Secretary of Agriculture, who chose for a subject "Arbor Day," the celebration of which he originated; Secretary Herbert writes on "What the President of the United States Does," and Secretary Hope Smith on "Our Indians."  
In a fascinating group of articles under the head of "How I Served my Apprenticeship," Frank R. Stockton tells how he became an author, General Nelson A. Miles gives reminiscences of his army days, and Andrew Carnegie recalls his earliest struggles in getting a business footing.  
The Publishers of The Youth's Companion make the following liberal offer: New subscribers who will send at once their names and address and \$1.75 will receive free a handsome four-page Calendar for 1906 (7 x 10), lithographed in nine colors, the retail price of which is 50 cents, The Companion free every week until January 1, 1896, the Thanksgiving, Christmas and New Year's double numbers free, and The Youth's Companion fifty-two weeks, a full year to January 1, 1897. Address, THE YOUTH'S COMPANION, 185 Columbus Avenue, Boston.

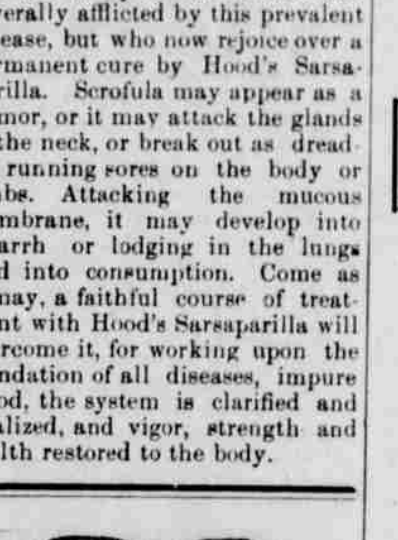

**PLEASANT AND PROFITABLE.**  
The session of the teachers' institute here Saturday was a largely attended, pleasant and profitable one. A few more such meetings will get up a degree of interest and enthusiasm which will be felt in every live school in the county. Our citizens entertained the visiting teachers hospitably and Independence is sure to do the same at its next meeting.—Dallas Itemizer.

**A Corn Harvester.**  
The labor-saving machine is moving on the corn crop. Corn is about the last of the field crops to succumb to the inventor. Machines go out into a sixty acre field of wheat and thresh it into sacks before night. Others will dig up ten acres of beets between sun-up and sun-down, cut the tops off and take them to the sugar mill. Corn-cutting and cornhusking have remained in the province of the hired man. But now a machine has been invented that will go out into the cornfield, husk the corn, put the ears into a wagon-box and take them to the crate as fast as three or four expert huskers. This machine appears a trifle belated in its appearance, for the old practice of husking corn afield and leaving the stalks to their fate has fallen into disuse, since the modern farmer values his cornstalk fodder as worth about the same per acre as first-class hay. But another machine is on hand to harvest the corn, stalks and all. One firm has sold 10,000 of them this year. It will cut the sixteen-foot giants of the Wabash bottoms, or the Yankee corn, planted with shotguns, in Vermont, equally well.

These corn machines are much worse from a social point of view than those that work in beets or small grain. They cannot compare for a moment with the hired man Oh, what a falling off it will be for the husking-bee when, instead of the Virginia reel and the simple kissing games of the honest youths and maidens, a lot of harvesters stand stolidly around in the barnyard, without a ripple of mirth to break their meditative silence!—Daily Oregonian.

**Worthy Your Confidence.**  
The success of Hood's Sarsaparilla in conquering scrofula in whatever form it may manifest itself is vouched for by thousands who were severally afflicted by this prevalent disease, but who now rejoice over a permanent cure by Hood's Sarsaparilla. Scrofula may appear as a humor, or it may attack the glands of the neck, or break out as dreadful running sores on the body or limbs. Attacking the mucous membrane, it may develop into catarrh or lodging in the lungs lead into consumption. Come as it may, a faithful course of treatment with Hood's Sarsaparilla will overcome it, for working upon the foundation of all diseases, impure blood, the system is clarified and vitalized, and vigor, strength and health restored to the body.

**HEART DISEASE!**  
Fluttering, No Appetite, Could Not Sleep, Wind on Stomach.  
"For a long time I had a terrible pain in my heart, which fluttered almost incessantly. I had no appetite and could not sleep. I would be compelled to sit up in bed and belch gas from my stomach until I thought that every minute would be my last. There was a feeling of oppression about my heart, and I was afraid to draw a full breath. I could not sweep a room without resting. My husband induced me to try  
**Dr. Miles' Heart Cure**  
and am happy to say it has cured me. I now have a splendid appetite and sleep well. Its effect was truly marvelous."  
MRS. HARRY E. STARR, Pottsville, Pa.
