### Your Face

Shows the state of your feelings and the state of your health as well. Impure blood makes itself apparent in a pale and sallow complexion, pimples and skin eruptions. If you are feeling weak and worn out and do not have a healthy appearance you should try Acker's Blood Elixir. It cures all blood diseases where cheap Sarsaparillas and so called purifiers fail; knowing this we sell every bottle on a positive guarantee. A. S. Locke, druggist.

Eruptions, cuts, burns, scalds and sores of all kinds quickly healed by DeWitt's Witch Hazel Salve. Certain cure for piles. Beware of counterfeits. Be sure you get the original—DeWitt's. A. S. Locke.

### AT THE SODA COUNTER.

Tastes of Men and Women Customers—Drinks in Favor.

"Some folks have an idea that every one goes out of town in the summer time," said the girl behind the soda water counter at the confectioner's. "But the fact is, our busy season doesn't really set in until June in this department.

"Many people who are at nearby resorts come into the city to do a little shopping of mornings. They come to town on the early trains and get back in time for luncheon. But they never fail to stop in on their way to the station and have a glass of soda.

"Soda water has improved considerably since the old days. Only children drank soda water then, for grown people simply wouldn't have it. They drank lemonade, sarsaparilla and ginger ale, and root beer used to be a favorite. It was not until a down-town druggist began to furnish a really excellent fruit flavor with soda water that it became popular as a beverage with men and women.

"Then ice cream soda was invented by some genius, and became the rage. It has improved steadily in quality. The flavorings were improved and enriched, the very best kind of fruit used in their manufacture, and now the crushed fruits themselves are served. With these as an addition, a glass of ice cream soda is a delicious refreshment for a warm summer day.

"Women are ice-cream soda fiends. They are as fond of it as children, and many of them come in regularly every day for it. One very old lady, who drives in a brougham, is one of our regular customers. She sends her footman in for it and he takes it out to the carriage. The sale of the old-fashioned drinks and even the mineral waters is practically nothing. Every one wants ice-cream soda.

"While the fruit flavors have been perfected to such an extent that leaves no room for improvement, the favorite order is for chocolate. The chocolate soda is served with vanilla cream as a rule, although there are some who ask for chocolate cream also. After the chocolate come the various fruit flavors, strawberry just now being in demand. At this time of the year the crushed fruit is served in the glass with vanilla cream and the soda poured over. In the estimation of judges this is the finest of all ice-cream sodas.

"Peach soda, which comes later on in the summer, is a close rival.

and some people prefer it. Strawberries do not agree with all persons, and the crushed peaches with cream and soda really make an admirable luncheon if eaten with a biscuit. Those who have never eaten a plain biscuit such as the soda cracker or milk cracker with ice-cream have a pleasure yet in store for them.

"Pineapple, apricot, currant and raspberry all have their followings. Sarsaparilla has gone out of favor with lemon. Orange is not used at all except with phosphate. Ginger ale has enjoyed a slight boom since it became the fad to drink it with the peel of a lemon curled in ice about the glass before

the ale is poured in, but is not popular."—New York Sun.
