

Dr. Darrin's Treatment.

Startling Illustration of What Can be Accomplished by Electricity.

Salem Statesman.

The philosophy of his treatment may be briefly stated thus: Force is spirit in motion. Vital force is organic motion, or the proper movement of the organized particles as they pass to and fro from the human system. Disease, in a word, is obstruction—the result of an impaired vital force, and it is at least accompanied, if not caused, by deranged organic motion. These derangements can only be radically removed by inducing the recurrence of the normal or healthy action. A cure can only be effected by calling in the aid of the electro-magnetic or vital forces, which are concerned in all organic changes. So powerful is this influence that persons who have many years suffered, have been restored to health in an almost incredible space of time. Dr. Darrin's system will not restore a lost member of the body, or perform other impossibilities, but it will, in a majority of cases, give relief, and cure where other remedies have failed. The practice is based upon the most strict laws of science, and is in harmony with all natural laws. Physicians of every practice not only acknowledge this power, but receive the treatment for themselves and their families, as well as recommend the treatment.

MRS. KARG'S GRATEFUL TRIBUTE.

Leland, Or., Nov. 14, 1900.

Mr. Editor:—Please publish this for the benefit of those who are afflicted with sciatic rheumatism. I had it and was cured by Dr. Darrin. I took sciatic rheumatism in November, 1896, and had it until November, 1898. My body was all drawn and bent to the right side; The pain was terrible in my back and hips to my knees; some-

times I had to go on crutches, then again I could walk with a cane; then all at once I would be so I could not get out of my bed; my husband would have to put me in a chair; I suffered everything for two years. I took all kinds of remedies I could hear of for sciatica, but they failed to do any good. Then I heard that Dr. Darrin was in Grants Pass, I made up my mind I would go and see him; I could only take a few steps at a time with the aid of a cane, then I would have to stop and rest. I took the first electric treatment on the 27th of September, 1898; on the 28th I went again and took another. At the end of four hours, after I took the second treatment, I could walk all around the house without a cane and that evening I went out in town to three different stores and bought a few articles, and then I went to the depot and took the train and came to Leland. My daughter, Mrs. Waller, met me at the Leland depot, and when I left the car steps without assistance, my daughter said to me: "Why mother?" Then she said, "How do you feel?" I told her I was getting well. We would laugh and cry together to think what a great change I had gone through in such a few hours. In a week I was doing my housework. My case was a severe one so Dr. Darrin gave me three months' treatment, but at the end of six weeks I felt so well that I quit using the electricity. The treatment he gave me was electricity and medicines. I haven't had the slightest symptoms of sciatica since. I hope all those who are afflicted with sciatica will go to Dr. Darrin. He will cure them as he cured me.

Yours truly,
Mrs. G. KARG.
