The following letter from Robert R. Watts, of Salem, Mo., is instructive. "I have been troubled with kidney disease for the last five years. I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." Sold by A. S. Locke.

No good health unless the kidney are sound. Foley's Kidneys Cure makes the kidneys right.

Rev. Dr. Elliott, of Salem Preaches It.

Rev. Dr. Elliott, the eloquent pastor of the Salem Unitarian church delivered the baccalaureate address at Monmouth Sunday morning. His discourse sparkled with profound thought and splendid flights of rhetoric. Excellent music was rendered and taken into consideration the excellence of the address made the 1902 baccalaureate exercises one of the most notable ever held in Monmouth.

Chronic bronchial troubles and summer coughs can be quickly relieved and cured by Foley's Honey and Tar. A. S. Locke.

John VanOrsdel, a son of sheriff J. G. VanOrsdel and who recently went to Cheyenne, Wyoming, is now in charge of a government surveying crew in Utah, says the Dallas Observer.

On the first indication of kidney trouble, stop it by taking Foley's Kidney Cure. Sold by A. S. Locke.

The recent outbreak of two convicts from the penitentiary reminds us that for several years our fellow-townsmen, Rev. E. J. Thompson, was chaplain of the Minnesota state penitentiary, where were confined the Younger boys, two of the most desperate characters ever captured. Rev. Thompson says these were ideal prisoners, never gave the guards one bit of trouble, and were men of learning. One Younger, the man who had the brains of the gang, was a man of massive head and had the impetuosity of a great general. These campaigns, he often said, were always carefully mapped out with a view to as little bloodshed as possible. The whistling of bullets had a sort of fascination for them; they were unable to explain. These two desperadoes were recently paroled, and are quiet, assuming commercial men now.

Mrs. Frank Fisher, of Monmouth was a passenger to Portland Saturday.

.32 Cal. High-Pressure Smokeless

IN MODEL 1893

WE are prepared to furnish our full line of Model '93 rifles, solid and take-down for the new .32 Caliber HIGH-PRESSURE SMOKELESS cartridge. This size uses a 165-grain bullet and has a velocity of over 2,000 feet per second, making it the most powerful cartridge made for an American arm, with the exception of the .30-40 U. S. Army. It is sufficiently deadly for any game known in North America.

Another great advantage is that the barrels are bored and rifled (but not chambered) exactly the same as the regular .32-40 Marlin, one turn in 16 inches. This makes the use of black powder and lead bullets as satisfactory and convenient as in a regular black powder rifle.

This size is the first high-pressure arm developed in this country for a caliber larger than .30, and the first to use a slow enough twist to give best results with black powder ammunition.

Prices same as .30-30 MARLIN. 120-page catalog of rifles, shotguns, ammunition, etc., cover 19 colors, mailed for three stamps.
