Virulent Cancer Cured.

Startling proof of a wonderful advance in medicine is given by Druggist G. W. Roberts of Elizabeth, W. Va. An old man there had long suffered with what good doctors pronounced incurable cancer. They believed his case hopeless till he used Electric Bitters and applied Bucklen's Arnica Salve, which treatment completely cured him. When Electric Bitters are used to expel bilious, kidney and microb poisons at the same time this salve exerts its matchless healing power, blood diseases, skin eruptions, ulcers and sores vanish. Marlin
32 Cal. High-Pressure Smokeless IN MODEL 1893

WE are prepared to furnish our full line of Model '93 rifles, solid and take-down, for the new .32 Caliber HIGH PRESSURE SMOKELESS cartridge. This size uses a 165-grain bullet and has a velocity of over 2,600 feet per second, making it the most powerful cartridge made for an American arm, with the exception of the .30-40 U. S. Army. It is sufficiently deadly for any game known in North America. Another great advantage is that the barrels are bored and rifled (but not chambered) exactly the same as the regular .32 40 Marlin, and turn in 1 1/2 inches. This makes the use of black powder and lead bullets an satisfactory and convenient as in a regular black powder rifle. This size is the first high-pressure arm developed in this country for a caliber larger than .30, and the first to use a slow enough twist to give best results with black powder ammunition. Price same as .30-30 MARLIN. 120-page cat. log. of rifles, shot-guns, ammunition, etc., cover in 9 colors, mailed free, stamps.
