Can Epilepsy be Cured?

Dr. Darrin Says Yes and Gives Overwhelming Proof of His Assertion.

Salem Journal

Mrs. Abbie Wareham was for 26 years a sufferer from epileptic fits. The many scars that she will carry through life bear evidence of the terrible falls she sustained as a result of this most horrible of afflictions—epilepsy. She consulted the best medical talent, six different physicians pronouncing the case incurable. She was recommended at last to Dr. Darrin, but in her own mind, and the minds of her friends, with but little hope of ever being cured. Appended are her own words:

"Dr. Darrin treated me with electricity and medicine, and from the first, I began to improve, and after a thorough course of his treatment I am happy to say I am cured. I have had no indication of a return of my awful affliction for the past 11 years. I give this in the interests of those similarly afflicted and most heartily recommend Dr. Darrin's system. I had epilepsy 26 years before going under Dr. Darrin's care. November 14 he cured me of a case of deafness in 10 minutes. I refer to Mr. B. F. Haley and Mrs. Graham, corner First and Main streets, also Mrs. F. E. Dewey, 386 Davis street, Portland, all of whom knew of my condition, then and now. Refer any and all to me at Montavilla, Oregon, by letter or in person."
"MRS. ABBIE WAREHAM.

SCIATIC RHEUMATISM CURED.

(To the Editor.)—I wish to state my case in brief. Five years ago I was afflicted with sciatic rheumatism and cured by Dr. Darrin with electricity and medicine. I remain permanently cured. Refer anyone to me at 545 Hood street, Portland. J. A. BENNET.

DR. DARRIN'S PLACE OF BUSINESS.

Marlin
32 Cal. High Pressure Smokeless
IN MODEL 1893

WE are prepared to furnish our full line of Model '93 rifles, solid and take down. for the new 32 CALIBER HIGH PRESSURE SMOKELESS cartridge. This size uses a 165-grain bullet and has a velocity of over 2,000 feet per second, making it the most powerful cartridge made for an American arm, with the exception of the 30-40 U. S. Army. It is sufficiently deadly for any game known in North America.

Another great advantage is that the barrels are bored and rifled (but not chambered) exactly the same as the regular 32-40 Marlin, one turn in 16 inches. This makes for use of black powder and lead bullets as satisfactory and convenient as in a regular black powder rifle.

This size is the first high-pressure arm developed in this country for a caliber larger than .30, and the first to use a slow enough twist to give best results with black powder ammunition.

Price same as 30-30 MARLIN. 120-page catalog of rifles, shotguns, ammunition, etc., cover in 9 colors, mailed for three stamps.
