Hair-splitting splits friendships. If the hair-splitting is done on your own head, it loses friends for you, for every hair of your head is a friend. Ayer's Hair Vigor in advance will prevent the splitting. If the splitting has begun, it will stop it.

Marlin
32 Cal. High-Pressure Smokeless IN MODEL 1893
WE are prepared to furnish your full line of Model 1893 rifles, solid and tub-down, for the new 32 Caliber HIGH PRESSURE SMOKELESS cartridge. This size uses a 105-grain bullet and has a velocity of over 2,500 feet per second, making it the most powerful cartridge made for an American rifle, with the exception of the .30-06 U. S. Army. It is sufficiently deadly for any game known in North America.
Another great advantage is that the barrels are bored and rifled just as the regular .32-40 Marlin, one inch in 10 inches. This makes the use of black powder and lead bullets as satisfactory and convenient as in a regular black powder rifle.
This size is the first high-pressure arm developed in this country for a caliber larger than .30, and the first to use a slow enough twist to give best results with black powder ammunition.
Prices same as .30-40 MARLIN. 120-page catalog of rifles, shotguns, ammunition, etc., cover in 10 colors, mailed for three stamps.
