DESPAIR TO HAPPINESS

Another Salem Lady Endorses Dr. Darrin's New Mode of Treatment.

To the Editor: I wish to tell you of the kindness you did me in publishing the testimonials to Dr. Darrin's skill, as I would never have known of him had I not read your paper. For twelve years I have been sorely afflicted with varicose ulcers of both limbs. My limbs had turned to a dark brown color and I was in great pain night and day, rendering sleep almost impossible. I had tried four doctors and many patent medicines, all to no avail, until going under Dr. Darrin's electrical treatment two months ago, when I was immediately relieved. Now I am a happy woman, with my suffering a thing of the past.

I candidly recommend all my friends to try Dr. Darrin, at the Willamette Hotel, Salem. I am German by birth, and 72 years old. I reside in South Salem, near the cemetery, and can be seen any time.

MRS. CARLEIN PFENNIG.

Weekly Crop Bulletin.

The past week has been the warmest one of the season; temperatures between 90 and 100 were common in both the eastern and western sections of the state. No rain has fallen since the last of July, and then the amount was too small to do much good. All late crops now need rain. Pasturage is getting short except where stock has had the advantage of a second crop of clover. The supply of milk being delivered at the creameries is diminishing, and range stock find difficulty in getting sufficient feed. Reports from the upper end of the Willamette valley and from Josephine county, are that the grasshoppers are doing

great damage to the second crop of hay.

The grain harvest is progressing nicely; the hot weather is ripening spring wheat and oats too rapidly, and fears are entertained that the heads will not fill well. Fall grain yields are disappointing in the Willamette valley, but threshing returns are coming in slow and it is too early to say just what the shortage will be.

In southern Oregon the yields are satisfactory. In the Umatilla country there is a shortage of about ten bushels to the acre in the wheat already thrashed. In Gilliam and Sherman counties the yields are above the average. But little thrashing has yet been done in the Grande Ronde Valley, but

it is expected the crop there will be an average one. Corn is earing nicely and hops continue doing well. Late apples are promising in most sections of the State.

All Were Saved.

"For years I suffered such untold misery from Bronchitis," writes J. H. Johnston, of Broughton, Ga., "that often I was unable to work. Then, when everything else failed, I was wholly cured by Dr. King's New Discovery for Consumption. My wife suffered intensely from Asthma, till it cured her, and all our experience goes to show it is the best Croup medicine in the world." A trial will convince you it's unrivaled for Throat and Lung diseases. Guaranteed bottles 50c and \$1.00. Trial bottles free at Kirkland Drug Co.
