Two years since a disease became prevalent in Kings Valley and in the logging camps, which the local physicians pronounced smallpox, and a number of employes in the Spaulding logging camp have recently become afflicted with a malady showing very marked symptoms of the same ailment. While the disease is infectious in character, it is in no sense malignant, and in most cases its course is brief as it yields readily to treatment, and as it does not leave the patient in an exhausted condition there is but little cause for alarm.

Look Pleasant, Please.

Photographer C. C. Harlan, of Eaton O., can do so now, though for years he couldn't because he suffered untold agony from the worst form of indigestion. All physicians and medicines failed to help him till he tried Electric Bitters, which worked such wonders for him that he declares they are a god-send to sufferers from dyspepsia and stomach troubles. Unrivalled for diseases of the Stomach, Liver and Kidneys, they build up and give new life to the whole system. Try them. Only 50c. Guaranteed by Kirkland Drug Co.

W. D. Quinn, Marseilles, Ill.

One thing is certain,—Ayer's Hair Vigor makes the hair grow. This is because it is a hair food. It feeds the hair and the hair grows, that's all there is to it. It stops falling of the hair, too, and always restores color to gray hair.

Marlin
32 Cal. High-Pressure Smokeless
IN MODEL 1893

WE are prepared to furnish our full line of Model '93 rifles, solid and take-down, for the new .32 Caliber HIGH-PRESSURE SMOKELESS cartridge. This size uses a 165-grain bullet and has a velocity of over 2,000 feet per second, making it the most powerful cartridge made for an American arm, with the exception of the .30-40 U. S. Army. It is sufficiently deadly for any game known in North America.

Another great advantage is that the barrels are bored and rifled (but not chambered) exactly the same as the regular .32-40 Marlin, one turn in 16 inches. This makes the use of black powder and lead bullets as satisfactory and convenient as in a regular black powder rifle.

This size is the first high-pressure arm developed in this country for a caliber larger than .30, and the first to use a slow enough twist to give best results with black powder ammunition.

Prices same as .30-30 MARLIN. 120-page cat. log of rifles, shot-guns, ammunition, etc., cover in 9 colors, mailed for three stamps.
