Hop burrs are of good size and are free from lice or other pests. Picking will begin about the first of September and the present condition of the crop gives promise of a heavy yield.

All of the employees in the Spaulding camp who were attacked with what was called small pox have recovered.

C. S. Craton supplies all of the logging camps and the Pedee lumber company with butter. Mr. Craton was the first to embark in the dairy business here and has been very successful.

**Look Pleasant, Please.**

Photographer C. C. Harlan, of Eaton O., can do so now, though for years he couldn't because he suffered untold agony from the worst form of indigestion. All physicians and medicines failed to help him till he tried Electric Bitters, which worked such wonders for him that he declares they are a god-send to sufferers from dyspepsia and stomach troubles. Unrivalled for diseases of the stomach, Liver and Kidneys, they build up and give new life to the whole system. Try them. Only 50c. Guaranteed by Kirkland Drug Co.

**Gray Hair**

"I have used Ayer's Hair Vigor for over thirty years. It has kept my scalp free from dandruff and has prevented my hair from turning gray."—Mrs. F. A. Soule, Billings, Mont.

There is this peculiar thing about Ayer's Hair Vigor—it is a hair food, not a dye. Your hair does not suddenly turn black, look dead and lifeless. But gradually the old color comes back,—all the rich, dark color it used to have. The hair stops falling, too.

**Marlin**  
32 Cal. High-Pressure Smokeless IN MODEL 1893  
WE are prepared to furnish our full line of Model '93 rifles, solid and take-down, for the new .32 Caliber HIGH PRESSURE SMOKELESS cartridge. This size uses a 165 grain bullet and has a velocity of over 2,000 feet per second, making it the most powerful cartridge made for an American arm, with the exception of the .30-40 U. S. Army. It is sufficiently deadly for any game known in North America. Another great advantage is that the barrels are bored and rifled but not chambered exactly the same as the regular .32-40 Marlin, one turn in 10 inches. This makes the use of black powder and lead bullets as satisfactory and convenient as in a regular black powder rifle. This size is the first high-pressure arm developed in this country for a caliber larger than .24, and the first to use a slow enough twist to give best results with black powder ammunition. Price some \$39.50 MARLIN. 120-page cat. log of rifles, shot-guns, ammunition, etc., cover in 9 colors, mailed free three stamps.
