**Deafness Cannot be Cured**

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

**To the Incredulous.**

THERE WAS NEVER THE MAN WHO WAS FOOLED OR HUMBLED — HE HUMBLED HIMSELF.

The human race affords in itself a most singular study. There are among the many classes of thinkers those who repose too much confidence in others, too little confidence in themselves, or no confidence in anything. The man who knows it all himself, the man who thinks somebody else knows it all and the man who thinks he knows who knows it all. The egotist, the simpleton and the skeptic. Recognizing the fact that people require more substantial evidence than mere words and promises, Dr. Darrin resorts to the most legitimate method of advertising himself by advertising his cures. That those among the community may be offered an opportunity of investigating before calling in person upon the doctor, the following names are published bearing evidence of the doctor's ability and skill as well as success.

J. V. Van Osdol's daughter, Salem, discharging ears and deafness, cured.
