A Nervous Woman

Will often feel compelled to stop the clock whose ticking seems unbearable to her. In such a nervous condition the woman needs a building up of the entire system. It is useless to attempt the cure of the nerves while the cause of the nervousness remains uncured. A very common cause of nervousness in women is a diseased condition of the delicate womanly organism.

Dr. Pierce's Favorite Prescription cures womanly diseases and the nervousness which they cause. It changes irregularity to regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It is a perfect tonic and nerve, tranquilizing the nerves, promoting the appetite and inducing refreshing sleep.

"When I first wrote you I had been to three different doctors and two of them said I would never get better without going to the hospital for an operation," writes Mrs. Selma Erickson, of 424 Rice Street, St. Paul, Minn. "Was not able to do anything. If I would get up and walk to the kitchen and back I would have to lie in bed for a day or sometimes two days. Now I have used six bottles of Dr. Pierce's Favorite Prescription and six of the 'Golden Medical Discovery,' and the result is just wonderful. I was so nervous I had to have some one by my side all the time even in day time, and I could hardly eat anything. I took treatment from a doctor twice a week, and every time I would go there I felt so sick, but since I quit all the doctors and began taking your medicines I gained right along. I weighed 125 pounds, when I began taking your medicines (in August) and now I am up to my usual weight 165. I am as well and feel as good as ever."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.
