ANOTHER SALEM LADY FINDS THE ROAD TO HEALTH AND HAPPINESS.

To the Editor: This is written so that other sufferers may know where to apply for relief. I have been afflicted for a long time with many diseases peculiar to my sex, which I will explain to any desiring to know. I have been successfully treated by Dr. Darrin, at the Willamette Hotel. My cousin, Mrs. Georgia Miles, of Pratum, was also cured by Dr. Darrin of a cancerous tumor in her breast. I most earnestly recommend Dr. Darrin and his electrical and medical treatment to all and I will gladly talk to any one at my home, 205 Thirteenth street, Salem.

Marlin

32 Cal. High-Pressure Smokeless IN MODEL 1893

WE are prepared to furnish our full line of Model '93 rifles, solid and take-down, for the new .32 Caliber HIGH PRESSURE SMOKELESS cartridge. This size uses a 165-grain bullet and has a velocity of over 2,000 feet per second, making it the most powerful cartridge made for an American arm, with the exception of the .30-40 U. S. Army. It is sufficiently deadly for any game known in North America. Another great advantage is that the barrels are bored and rifled (but not chambered) exactly the same as the regular .32-40 Marlin, one turn in 16 inches. This makes the use of black powder and lead bullets as satisfactory and convenient as in a regular black powder rifle. This size is the first high-pressure arm developed in this country for a caliber larger than .30, and the first to use a slow enough twist to give best results with black powder ammunition. Prices same as .30-30 MARLIN. 120-page catalog of rifles, shotguns, ammunition, etc., cover in 8 colors, mailed for three stamps.
