Saturday Evening's Telegram had this to say of a former Monmouth student, who is now captain of the University of Oregon eleven: "I. H. Watts, who is captain and right tackle of the University of Oregon eleven, is 25 years old and weighs 179 pounds. He was raised near Athena, Or. In 1896 he played guard for Monmouth Normal School, and in 1899 he played guard for the Amateur Athletic Club of Pasadena, which eleven won the champion-

How long will it take the man to fill the sack if he does not stop the leak? To attempt to nourish the body when the stomach is diseased is like trying to fill the sack with the hole in it. When the stomach and other digestive and nutritive organs are diseased, there is a constant loss of nutrition.

Enough is eaten but the body loses flesh—plain proof that the food eaten is largely wasted because it is not digested and assimilated.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It stops the leaks by which nutrition is lost, and enables the building up of the body by the nutrition derived from food. The gain in weight proves the cure.

"Three years ago I was taken sick with what the doctor called nervousness and indigestion," writes Mrs. Warren E. Parker, of Orange Street, Nantucket, Mass. "He gave me medicine for the trouble, but I could not eat even a little toast months I began to have distressing pains right in the pit of my stomach. I called the doctor again and he said I had catarrh of stomach; gave me medicine but it did not do any good. I lost 25 pounds in three months. I then commenced taking Dr. Pierce's medicines and soon began to feel better. I have taken six bottles of 'Golden Medical Discovery,' two of 'Favorite Prescription' and six vials of Dr. Pierce's Pellets. I have gained ten pounds. Can eat everything."

ship of Southern California. In 1900 he played guard on the University of Oregon's junior team, and the following year played left tackle and right half for Oregon. This year finds him at left tackle, the peer and leader of Oregon's varsity."

Some three months ago a certain newspaper in this state offered prizes to its correspondents for the amount of news matter they could furnish the paper. The "news" was classified and arranged on the "point" system and the first prize was a very handsome \$20 Morris chair. The chair is solid oak, upholstered in dark green velvet—a real beauty. There were seventeen contestants, among whom was Mrs. Grace E. Hall, formerly of this city, but now of Buena Vista. The contest closed the first Saturday evening of this month and Mrs. Hall secured the first prize by nearly 500 points. This will be pleasant news for her many friends in this city, but it will not surprise them, as her ability as a news gatherer and correspondent is well known here—Corvallis Gazette.
