A very pleasant quiet home-going wedding occurred on Wednesday afternoon, the 5th inst at the residence of Mr. B. M. Estes, Rev. Dr. Thompson officiating. It was the marriage of Mr. Alex Schick, of Salem, to Miss Nellie May Foister, of Albany. The parlor was very nicely decorated for the occasion and the happy couple stood under the arch of roses in the center of which was suspended the family bible of the bride's great grandmother. The effect was very impressive and interesting, for the bible was not only historic, but was also an old pioneer, having crossed the plains in the early 40's. After receiving congratulations of those present, Mr. and Mrs. Schick took their departure for Salem, their future home.
What It Means.
Special from Buena Vista.
It is a good sign to see, at the opening of the public schools this fall, an increased attendance over any former year's enrollment. District school, public school and college are alike filled with stu-

dents, eager to gain knowledge that will fit them for life's serious duties which are sure to come.
Education in years gone by meant, practically, a scanty knowledge of reading, writing, spelling and arithmetic. Today it means position, power and social standing; it means wealth or poverty; recognition from the world or being ignored by the world; it means power among one's fellows or total lack of power; it means an elevated life, above the slums of petty gossip, and association with refined minds, or a groveling spirit that is the contempt of all observers.
The illiterate man stands but a small chance for success in the mad race for wealth and fame that is a characteristic of the present day. As a thoroughbred throws dust in the eyes of the awkward draft horse, so the educated man of today leaves the uneducated one far in the rear and gathers the honors that the latter would fain call his own.
Parents are rapidly awakening to the fact that unless their children are given an education they will amount to scarcely more than a foil for their better educated neighbors, and no father or mother wishes their sons and daughters to feel the slight of the social world.
At Eugene, Corvallis, Independence and Monmouth the schools this fall are full and it is well. It speaks highly for the future of the country; well for parents and well for the children. The world needs men and women, and the high schools turn them out. Encourage the teacher in every way possible and see that the little ones are at school each day. It means much to them; it means much to the nation.
Our supply of new books in the good bindings are expected every day and will contain all up to date. Wagoner's.
