

# FALLS CITY

Miss Maud Graham is now a member of the store corps at the new store.

C. L. Hopkins has resumed his position with the Pedee mill and gone to that place.

D. R. Isaac is improving his property near the school house with fences and a general clearing up.

O. E. Leet went to Hillsboro on property business the last of last week, visiting Portland briefly while gone.

R. E. Bryan has been giving personal attention to the changes of the business of his firm lately, he having come over from Dallas Friday.

Albert Teal and A. B. Brown took the second degree of the I. O. O. F. Saturday night and are billed for the third one week from Saturday evening. Odd Fellows, be on hand.

T. D. Hollowell has made the preliminary steps toward the ownership of the entire hillside between the picket fence in front of the school house and the one to the west. His plan is to improve the place in the near future.

"Hoodview" is the name being talked of for the Thompson & Tice addition. The place gives an excellent view of Mt. Hood rising beautiful with white snow and blue shadows against the horizon, and this fact suggests the name.

We are informed that the city charter has been signed by Governor Chamberlain, which with the attached emergency clause puts it into immediate effect instead of its going into force in April as we were informed last week. Like Greater New York our new charter gives us the surrounding suburban districts.

Make your arrangements to attend the social at the parsonage tomorrow night. The committee of the Epworth League which has it in charge has arranged a program of games and amusements to fit all ages and conditions. A collection will take the place of an admission charge.

T. D. Hollowell has closed the deal with J. Cabe and Thomas Edgar by which the latter become owners of the Home Restaurant-property for which they made preliminary negotiations while here last Friday. The deed is for lots 4 and 5 in block D, and the consideration is \$800. The purpose for which the place is to be used is not yet made public. Mr. Edgar will be in town the last of the month.

The City Meat Market has been moved to the new apartments arranged on the ground story of the Bryan-Lucas building and there Messrs. Barnhart & Wright may be found dealing out meats under greatly improved circumstances.

Ed Turner, an old time citizen is again working in town for Bryan & Lucas.

The members of the Christian church wish us to express in our columns their thanks to Mr. Harrington for having hung free of charge the paper in the church last week. Bro. Harrington performed a like act for the Free Methodist church recently and did most of the painting on the M. E. church last fall under the same circumstances. He is willing to do not only his share but more.

We heard the renowned Eli Perkins at Dallas Saturday evening and listened to his dissertation on the peculiarities of China and Japan. Mr. Langdon, which is Eli's real name, is nearly if not quite the last of the famous school of humorists of which Mark Twain, Burdette, Bill Nye and others of equal note were members, and he is growing old in his labor of amusing mankind.

Jonah, Ira and George Lowe have been putting a fence around a part of the flat by the Hinshaw home this week preparatory to using the ground. This shuts up our athletic field very effectually and will necessitate the procuring of another ball ground.

Maud Montgomery is quite sick this week and has been taken to the home of Stewart Montgomery so that she may be under the care of Mrs. Elsie Parry.

Mrs. J. C. Talbott has joined her husband at Dallas, where he and J. S. Talbott are in charge of the steam donkey on the railroad.

The moving into their new store by the Bryan-Lucas Co. has been accomplished and the stock is displayed on the new shelves. An idea of the room in the new place is gained from the fact that the goods which crowded the old building scarcely fill one end of the new. A large line of new goods has been ordered direct from Portland, and the manager, Mr. Black, informs us that a much more complete line than ever before will be carried in up-to-date goods.

Fred Lanway, having returned from his claim, left yesterday for Roseburg and the north of California.

The narrow gorge on the LaCreole above the camps is being blasted out to insure the safe passage of floods hereafter. The gorge has caused many jams and serious trouble and a large crew is at work on it.

A petition to the county court now in session at Dallas has been circulated among our business men praying for the moving of the bridge across the Luckiamute at this place 80 feet south from its present position in order to place it on a line with Bridge street. The condition that the petitioners shall furnish a 50-foot lot on each side of the river for the bridge ends and approaches is included.

Miss Ida M. Snyder.

Treasurer of the Brooklyn East End Art Club.  
"If women would pay more attention to their health we would have more happy wives, mothers and daughters, and if they would observe results they would find that the doctors' prescriptions do not perform the many cures they are given credit for."  
"In consulting with my druggist he advised McElree's Wine of Cardui and Thedford's Black-Draught, and so I took it and have every reason to thank him for a new life opened up to me with restored health, and it only took three months to cure me."  
Wine of Cardui is a regulator of the menstrual functions and is a most astonishing tonic for women. It cures scanty, suppressed, too frequent, irregular and painful menstruation, falling of the womb, whites and flooding. It is helpful when approaching womanhood, during pregnancy, after childbirth and in change of life. It frequently brings a dear baby to homes that have been barren for years. All druggists have \$1.00 bottles of Wine of Cardui.

WINE OF CARDUI

R. M. Cramer, the Corvallis organ man, made a business call in town the first day of the week.

The ladies of the Christian church have arranged to serve a chicken supper this (Thursday) evening at the Hollowell restaurant. The place has been turned over to them for the occasion and the proceeds will go toward the purchase of new pews for the church. There is no need of getting supper at home when you can procure a good supper for 25c; children under 10 for 15c, and at the same time aid a good cause. We also learn that Mrs. Decker will have some of her famously good home-made confections for sale for the same cause at the restaurant.

An important business change and addition has been carried as far as time would allow. Zim Hinshaw is to complete as soon as possible a 16x30 feet addition to the barber shop building on the side toward the hotel and has arranged to lease it to C. J. Pugh. Mr. Pugh has bought the Hunter & Raymond confectionery store and will move it and his jewelry stock into the new building as soon as possible which he hopes will be in about two weeks. Mr. Pugh has shown commendable business principle and energy since embarking in trade here and we are glad to chronicle this advance move.

Few things are made perfectly and the imperfections in things develop gradually. It is found that the original plat of the city left no approach to the school house save the street which runs in front of the C. J. Pugh and back of the J. R. Moyer places. Later a street was made in front of the Moyer place along the brow of the hill, but the only streets down the hill are those which run past the Jonah Lowe house on the

west and the A. E. Martin and J. C. Frink places on the east. The streets between Ira Mehrling's and F. J. Holman's, between N. A. Emmett's and Jack Wagner's and in front of Mrs. Thorn's lots stop at the road running along the foot of the school house hill, leaving the entire hillside a solid block. The building of fences would shut off the usual paths and cause all travel to go by the end streets at the east and west. A movement to procure an extension in two places of the streets to the top of the hill should be heartily supported. Not only property owners on the hill but all interested in the school and the convenience of the town should be interested. Ground in at least two places should be purchased before prices become too high and dedicated to the city for streets connecting the street at the base with that at the brow of the hill.
