If You Ask Ten Men

What is the most important part of a buggy? nine of the ten will tell you **the wheels.** The wheels of our buggies were made to stand long ago. They are made of good hickory, screwed rims, steel rims, bolted between every spoke. Now about the other man. He may say "fifth wheel," "springs," "top" or "shafts;" but it is doubtful if he says the body. Why? Because a body seldom comes all to pieces and leaves him in the middle of the road. At the same time if any man who has used a buggy will answer the following questions he will see how important and desirable a good body is. Were your legs ever cramped in a long ride? Our buggies have plenty of leg room. Is the back of your buggy high enough? Ours are very high. Did you ever have a corner open? Ours are secured by a corner iron. Did you ever have a seat riser break loose? Ours are screwed to heavy oak strips 5 inches wide and 12 inches long. These are only a few of the many good features of our buggies. We have them from \$50 to \$100. Every one sold on a year's guarantee. Come in and see them.

into his mind a deep love for his country and you have started him on the road to an honorable and useful citizenship. Naturally, there will be exceptions, but no better influences could be his than the ones mentioned.

Over each school house the stars and stripes should float and in each school there should be plenty of good books,—books selected with discretion and containing only such ideas and ideals as will tend to broaden and brighten the young minds.

A school library is as necessary and as beneficial as any other part of the school room paraphernalia and should be regarded as such by the patrons of the schools.

In this respect Buena Vista is up to the standard. A library was established here in 1896 and there are now 133 good books at the service of the scholars. This is a fine showing and one of which the town is proud. Let the scholar become familiar with 133 books by standard information so gleaned will forever be a source of pleasure and profit to the possessor.

Funds derived from recent lectures and entertainments here are available and yet to be expended for books for Buena's school library. Let other schools fall in line in this work. It will pay them well.

Free.

I will give free, one piece of sheet music for every 25c purchase of music purchased of me, commencing May 2nd and ending on evening of May 10th.

You can have your choice of either vocal or instrumental music. This music given away is some that gets into the boxes and often not seen. Here is a chance to get 2 pieces for one.
