

# DR. DARRIN'S TREATMENT

STARTLING ILLUSTRATION OF WHAT CAN BE ACCOMPLISHED BY ELECTRICITY.

This is the First Visit of the Head of the Firm of Drs. Darrin to This City.

Albany Herald.

The philosophy of his treatment may be briefly stated thus: Force is spirit in motion. Vital force is organic motion, or the proper movement of organized particles as they pass to and from the human system. Disease, in a word is obstruction—the result of an impaired vital force, and is at least accompanied if not caused, by deranged organic motion. These derangements can only be effected by calling in the aid of the electro-magnetic or vital forces, which are concerned in all organic changes. So powerful is this influence, that persons who have many years suffered, have been restored to health in an almost incredible space of time. Dr. Darrin's system will not restore a lost member of the body, or perform other impossibilities, but it will, in a majority of cases, give relief where other remedies have failed. The practice is based on the most strict laws of science, and is in harmony with all natural laws. Physicians of every practice not only acknowledge this power, but receive the treatment for themselves and their families, as well as recommend the treatment to their patients.

## Miss Nellie Durfee, a Popular Young Lady of Shaw Regains Her Hearing One Year Ago.

To the Editor:

I came to Salem with my daughter April 28, 1902, to consult Dr. Darrin concerning her deafness. After a thorough examination the doctor took the case under treatment, and in one operation and with the use of electricity, restored her hearing much to our surprise and gratification. I was so pleased with her cure that I placed myself under the doctor's care. He has cured an almost total deafness of one ear, with which I had been afflicted for twenty three years. I can be referred to by letter or in person, and will gladly answer all questions. I reside at a Shaw, Marion county, Ore.

C. R. Durfee.

## Surprise Party.

Parker Special.

On Wednesday evening, June 3, the many friends of Miss Lura Critchlow gathered together and gave her a most happy surprise at the home of Mr. and Mrs. Wm. Fuqua, and finding Miss Lura picking over gooseberries all joined in the generally considered tedious task and the number of gallons of berries picked over by 10 o'clock was surprising. Miss Lura proposed to change the play several times during the evening, but was silenced by many voices, "not till these berries are taken care of properly," and as the many jokes and merry ring of laughter went round all told the tale of the social pleasure a party of young people can have picking over gooseberries and it was voted something new in parties.

When all the berries were cared for the young people joined in singing for awhile, after which they departed for their homes with a standing invitation to come and eat gooseberry pie.

ENTERPRISE as are all our neighboring places. Yet there are a few facts or features which have not been considered lately.

Parker has many advantages, though a small place. There are no saloons, but plenty of good pure air and fine farms around it.

There are also some disadvantages, the number of vacant houses and unmarried men are surprisingly conspicuous, and good men, too. We cannot account for either of these two existing phases, and hardly know how to class them as advantages or disadvantages. But it does appear to me that if these vacant houses were occupied by nice families the town would certainly be in a more progressive state.

Now, girls, we are not advertising, but there are just five bachelors in and about Parker and not one of them, I know, would be slow to appreciate the charms of even a plain woman, so now any little attention from a smile to an invitation to a dinner will be appreciated by your

## A Trip Over the County.

Special from Parker.

Mr. Fuqua gives us a few of the ideas he gathered during his week's sojourn to Salmon river and Siletz bay looking for cattle.

"There was not enough rain to dampen my enthusiasm," he said, "so I made good time on horseback, but found an abundance of mud on the mountains beyond Grand Ronde, yet some parties were going to the seaside on pleasure trips. The mud was deep and plentiful till well down toward the beach where traveling was better.

"Most of the people are rather poor in the mountains, though there are some nice places. There is one place at the mouth of the Salmon river where the owner keeps 500 head of sheep. There is a mail route from Siletz Agency to Kernville, Johnson, etc. The mail carrier walks much of the distance and also has boats at different places to convey the mail matter to the different places of destination."

## Last Month in Business Here.

F. A. Douty's store closes on the 25th inst, on which date he will sell to the highest sealed cash bidder per inventory. The time elapsing between the 25th and the first of July will be used by Mr. Douty in winding up his business. On the latter date he takes active charge of one-half interest in the Multnomah Saw and Planing Mills of Portland, with trunk and box factory annexes. This business is one of the largest of its kind in the Northwest. Mr. Douty is a hustler and will no doubt meet with success.
