

FACIAL PARALYSIS.

MR. CROSTHWAITE'S EXPERIENCE AND HOW HE WAS CURED.

(Albany Herald.)

Dr. Darrin, Hotel Revere, Albany. Dear Sir: In answer to your communication asking me to make a statement of my case, I most willingly do so, if by so doing anyone afflicted as I was might have their attention called to the success with which you treated me. As you know, I consulted you regarding a very serious case of facial paralysis, the entire side of the face being completely paralyzed. I could not shut the eye, having no control over the lid; the lower lid was drooped down, and the lower side of the face badly drooped, the corner of the mouth badly drawn down. Anyone can imagine the condition of a person's mind under such circumstances. I had almost given up all hopes of ever being myself again until I consulted you and you assured me that you could cure me. I commenced treatment at once, and commenced to improve from the start, and in three months' treatment found myself entirely cured. I make this statement willingly that anyone suffering as I have may avail themselves of your great skill.

W. T. CROSTHWAITE, 246 Washington St., Portland.

Deafness Cured in Ten Minutes.

To THE EDITOR: For about 15 years I had been afflicted with a discharging ear and deafness. I was induced to try Dr. Darrin from the fact that he cured my uncle, Wm. Parret, of Middleton, of deafness ten years ago. The doctor cured my deafness March 9, 1899, in less than ten minutes with electricity and a slight operation. I will gladly answer any questions at Middleton, Oregon, where I have resided for years.

RICHARD PARRETT.

Dr. Darrin's Place of Business.

Dr. Darrin is located at the Revere Hotel until October 1st, and will give examination to all from 10 to 5, or 7 to 8 daily. The poor free, except medicine, 10 to 11 daily, and those able to pay at the rate of \$5 a week or in that proportion of time the case may require. All curable chronic diseases of men and women a specialty. Eyes tested and glasses fitted at reasonable prices.

This is the first visit of the head of the Portland firm of Drs. Darrin to this city.

POLK COUNTY.

An article on Polk County resources, to be published in installments.

CLIMATE OF POLK COUNTY.

The climate of Polk county is not monotonous in its similitude. It has not the extremes of the eastern climate. It seldom goes higher than 85 degrees in the summer, or below 30 degrees in the winter. We have but little freezing weather and less snow. There is an ample amount of rainfall to keep an excellent growth of vegetation the year around and irrigation is not necessary. We have neither blizzards or cyclones, droughts or pests.

THE STOCK INDUSTRY.

Polk county is continually improving this line of industry. In every section of the county better grades of stock are being introduced. At the present time we have imported amongst our stock the Angora goats, the Cotswold and Marino sheep, Poland China and Berkshire swine, Holstein and Hereford cattle, the Blue Ande-

lusion, Barred Plymouth Rock, White Brahmas, Leghorn and Buff Cochin chickens.

Owing to the open season there must be but little feed kept to winter the stock in Polk county. In the raising of the goats and sheep the growth of the wool and mohair is better, longer, more even and heavier than in the colder climates. Many of our sheep shear as high as 25 pounds and the flocks of some of our largest dealers average 22 pounds throughout. The product sells in the market at highest price obtainable owing to grade of wool grown. Wool will average in price from 16 to 18 cents per pound. The improving of the grade of sheep and goats does not only improve the grade of wool and mohair, but it improves the price of the stock in the market, and we are commencing to be exporters of stock where we were formerly importers.

Goats do well in Oregon. The same conditions are necessary to raise goats as sheep. Goats shear from 3 to 6 pounds on average, and J. B. Stump, of Monmouth, shears from one of his high bred goats 8 1/2 pounds. The Angora fleece often averages 18 inches in length and we have seen a fleece as long as 22 inches. The crop this year sold through the Mohair Growers' Association at 38 1/2 cents per pound.

For the sheep and goat industry all that is necessary is plenty of underbrush, good grasses, water and range. They are placed on the hilly lands and live on the shrubs. It is not necessary to plant much of the domesticated grasses to keep them. But some hay should be stored for the danger of an extra cold winter. Large sheds are being placed in the fields for them and it is proving that the stock does a great deal better with this care.

Swine proves profitable. The feed formerly was wheat, but improved methods are in vogue at present, and speltz, vetch and rape are raised extensively and a much better grade can be produced with the same outlay of money than could be produced otherwise. We will take the following estimate, which was given us by Sperling Bros., the meat men of Independence: They say that 160 acres of land, placed in pasture, grain, etc., will take care of 400 hogs, and that these hogs will weigh an easy average of 200 pounds and are worth an easy average of 6 cents per pound, or from the 160 acres can be secured \$4800 from the hogs if a party wished to go into this industry alone.

Chickens can be raised at a very little expense and they bring in good profits and a steady income. Parties in Polk county are going into this line of industry extensively and are importing the Blue An-

delusions, Barred Plymouth Rocks, Brown and White Leghorns, Buff Cochins, Langshans and other good selling grades. Hens will sell today at our market in Independence at \$5.00 per dozen, and average the year round \$3.50, and eggs average 15 cents per dozen. We copy here a report made by a Nebraska grower of chickens, found on page 93, State of Washington Book of Resources for 1901: "One bushel of grain will keep a hen a year. The average hen of the right breed will lay 180 eggs, or 15 dozen during the year. Taken at 15 cents we have \$2.25 per hen per year. Take wheat at 75 cents per bushel, we clear \$1.50 per year to the hen. Now land here will raise from 25 to 30 bushels of wheat to the acre, so there is a profit of about \$37.50 per acre to the hens for one acre of sowed grain. If a man would go into this business and have 50 acres of land and 7 acres corral he has a nice income.

Enterprise Day at Parker.

Perhaps the most excitingly enjoyable day at Parker is the day to which we owe the arrival of the ENTERPRISE. It is wonderful to observe the interest manifested by each and every one of our citizens, and to note the eagerness with which we scan the columns of our little county paper.

Every soul in our little burg is satisfied when the ENTERPRISE has been read, re-read, commented on, and finally proclaimed to be the best county paper in the state. And the manner in which the ENTERPRISE is borrowed, loaned, returned home by request, or mailed to distant friends, is a fitting tribute to its merits.
