grade. All sections of the state are represented, though naturally the largest majority came from the Willamette valley. Eastern Oregon is represented by 8 students; southern Oregon, by 9; the coast, by 13. Other states represented are Washington, 2, Idaho, 1, North Dakota, 1, West Virginia, 1. The two limits of the Willamette valley are well represented, Multnomah county having, 14, while Lane has 11.

New song books have been purchased for use in assembly. The Abridged Academy song book, published by Ginn & Co., is the title. It contains 4 kinds of songs, namely sacred, familiar, patriotic, and college. The entire assembly period on Tuesday was devoted to singing college songs, and the old chapel rang with melodies familiar to old college students everywhere. The singing brought back to members of the faculty recollections of happy days of many years ago.

The Library Committee has just selected the list of books to be purchased with the \$300 set aside by the Regents for that purpose. These additions will be both of a special nature adapted to the work of the different departments, and a general literary character including some of the latest fiction and verse.

The athletic season has been somewhat delayed by the failure of the constructors to get the Gymnasium ready by the first of September. The physical training classes will organize this week, and the football team will begin practice. Games have been scheduled with Willamette University at Salem, October 24; McMinnville College at Monmouth, November 7; and at Mt. Angel College at Mt. Angel, October 31. A return game with Mt. Angel will be played in Monmouth later on, and possibly games scheduled with Albany College and Pacific University.
