

Does Manhood Fall?

Albany Herald.

It may sometimes, owing to nervous disorders, but it is hardly ever lost, except in extreme old age, which is called impotency or sexual neurasthenia is merely weakened power. Underneath the ashes the fire remains aglow. It requires careful, scientific treatment to fan it into a bright flame of life and energy. For these cases, which have been hitherto the despair of the physicians, nothing equals the application of electricity, if by proper and exact danger, in combination with the scientific administration of specific medical remedies, which penetrate the secret ambush of diseases, exterminating it root and branch forever. A rejuvenation follows its use. It produces results because it replenishes the vital tonicity requisite to the nervous system. According to Dr. Darrin's peculiar and scientific methods of administration, it is a powerful vitalizer, indicated in diseased conditions, due to all kind of excesses.

Dr. Darrin gives free examination to all, and, when necessary, gives medicine on connection with electricity. The poor treated from 10 to 11 daily, except medicine. Those willing to pay, 10 to 5; evenings, 5 to 8; Sundays, 10 to 3. Errors of youth, blood taint, gleet, impotency, varicocle, and stricture a specialty. All curable chronic or private diseases treated at half his former prices. No case published without the permission of patient. All business relations with Dr. Darrin strictly confidential. Letters of inquiry answered. Circular question blanks sent free. Dr. Darrin will remain at the Revere Hotel Albany, until Dec. 1, only.

Normal Notes.

President Ressler addressed the students on Tuesday morning, Oct. 20. His subject was "Class Organization." He gave the students a broader view of college life and the benefits to be derived from association, not only in the class-room, but also in the various clubs and societies.

President Ressler always has the welfare of the students in mind; he seeks to arrange the work for their best good, and with this motive he decided that the five week tests should be divided, the afternoon subjects to come on Thursday at the regular hour of recitation, and the remainder of the subjects on Friday morning. Before this, all the examinations came on Friday, and the afternoon subjects usually found the students too tired to do their best work.

On Tuesday, October 20, Mr. Ressler left to attend the institute in Moro, Sherman county. While there he gave an evening lecture, subject, "The Philosophy of Happiness."

The football rally on Tuesday Oct. 20, was a grand success. The students met at the Chapel and practiced yells until they were hoarse. Then they marched in a body to Prof. A. F. Campbell's house and insisted on his coming out and making a speech. Taking

Prof. Campbell with them they proceeded to Prof. Robinson's and prevailed on him to come out. Once he was out there was no going back so he had to make a speech and go along too. Prof. Powell was the next victim; he proved equal to the occasion and soon professors and students were gaily walking around the huge bonfire, shouting class yells and making the night resound with foot-ball enthusiasm.

Senior Chapel appearances have taken a new and pleasing form. Miss Jensen and Miss Yoder inaugurated the new order of things on Thursday morning, Oct. 22. Miss Jensen gave a sketch of the life of Rudyard Kipling, and illustrated the contrasting sides of his genius by reciting "On the Road to Mandalay" and the grand "Recession-al." She also read a selection from "The Light that Failed," showing Mr. Kipling's ability in prose description.

Miss Yoder talked for a while on Shelley, giving a brief sketch of his life; she then recited his masterpiece, "The Cloud."

One of the pleasantest events of the week was the joint session of the Literary Societies on Friday evening, Oct. 23. The programme was given in the following order,—Opening Address, P. O. Powell; Quartette, Sadie Crayen, Lena Crayen, Fay Falkenson, Claire Bentley; Recitation, Eugenia Snelling; Society Paper, Lotta Boche; Quartette, Messrs. North, Arant, B. Powell and C. Murphy; Debate:—Resolved that a pure Republic is the best form of Government. Aff. A. F. Campbell and Miss Dale; Neg. J. B. V. Butler and Miss Hampton; Solo, Miss Kienon; several games, etc.

In the Training Department Mr. Rice is trying a new plan with the higher grades. Each grade is divided into A. and B. The A. is a half year ahead of B. This is a great advantage to the scholars as the examinations can come semi-annually so if a pupil misses one examination he has a chance to try again in five months and does not have to wait a whole year to make his grade. The teachers gain practice in discipline as one class recites while the other studies; the teacher must hold the attention of those reciting and at the same time see that the pupils of the other

class are applying themselves to their books.

Mr. Allen has been called to his home in Eastern Oregon but is expected back on Saturday or Sunday.
