A collection will be taken for the needy. Let Independence do justice to itself this year in this matter. Let us do what we should at this time of year.

We called in at the athletic club building Monday to see how Capt. Skinner was progressing with his new boat, and find it to be already assuming symmetrical proportions. It is 55 feet in length and slightly over 8 feet in breadth, and competent authorities think it will not carry over 10 inches of water. The boat is to be called the "Independence," and the lovely silk pennant will fly this name from the masthead of the vessel. It is purported that the boat will make the trip in about one and a quarter hours. Contrary to general understanding Mr. Skinner does not secure one single cent as bonus, and the building of the craft is simply a business proposition. He has sold a certain amount of tickets in advance which he will redeem as soon as the boat is running, and this is the bonus the "liberal" citizens of Salem are boasting far and wide about. Mr. Skinner has operated a boat between here and Salem previously and made it pay, and there is little reason to doubt but what the new proposition will be a paying one to him.
