A Timely Suggestion.

This is the season of the year when the prudent and careful house wife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt when it is kept at hand and is given as soon as the cold is contracted and before it has become settled in the system. In every instance a severe cold may be warned off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children for it contains no harmful substances. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. For sale by Kirkland Drug Co.

PEDEE.
