Independence will on December 1st select officers for the ensuing year. A citizens meeting is called for on Monday evening to place in nomination suitable candidates. Everybody should turn out. It is a duty you owe the community in which you live to take some interest in its civic affairs. This opportunity will be given you on Monday evening, Nov. 24. The meeting will be held at 7:30 at the City Hall.

Mr. Dumt, an extensive California hop buyer and grower, who is looking over the hop fields of Oregon, thinks hops will go to 30 cents. He says in the Telegram: "It is rather difficult to forecast conditions or prices of hops in the future, but I am of the opinion that before the first of next May the price will reach 30 cents though I don't think this price will be paid before the first of the year though some people do. I am an independent buyer and have 3100 bales in California of my own growing. I am not up here to excite the market neither am I here in the interest of any firm, I am looking over this country for hops and I'm going to have them. Asked concerning the demand, he replied: "The demand is strong. I am buying hops for export and ship direct to London. I will say further that the English market has not yet really opened and when it does open up there will be something doing."

The fifty-seventh congress will reassemble in a few weeks and a part of its work will be the passage of the post check currency bills, which provide for a practical and convenient method of sending small sums of money by mail. A great deal has been written on this subject, and there are few who do not know that this method is simply an issue of currency that can be circulated as cash and also be safely remitted by mail, because when mailed it will be made payable only to the person whose name is written in the blank space that is

left for that purpose. Under the present order system safety can be assured only at the sacrifice of convenience and convenience can be consulted only by disregarding the element of safety. The Post Check plan is both convenient and safe and being so is just what the public needs in its line. The business interests and the press favor it with virtual if not actual unanimity and in fact the full measure of popularity it has won is a warrant if not an order for its adoption by Congress.

The school was closed Monday to avoid the spreading of the dread disease diphtheria among the children. It is probable that no more school will be held until after Thanksgiving, as every possible precaution is to be taken.

Owing to the danger in public gatherings until the danger of a spreading of diphtheria has passed, the entertainment which was to have been given at the M. E. Church last evening was postponed. No Sunday School will be held next Sunday for the same reason.

The banquet which was to have been given next Saturday evening in honor of the second anniversary of the founding of the I. O. O. F. lodge here has been given up to avoid the danger of a public gathering and the possible spreading of diphtheria thereby.

"After my first baby was born I did not seem to regain my strength although the doctor gave me a tonic which he considered very superior, but instead of getting better I grew weaker every day. My husband insisted that I take Wine of Cardui for a week and see what it would do for me. I did take the medicine and was very grateful to find my strength and health slowly returning. In two weeks I was out of bed and in a month I was able to take up my usual duties. I am very enthusiastic in its praise."

Wine of Cardui reinforces the organs of generation for the ordeal of pregnancy and childbirth. It prevents miscarriage. No woman who takes Wine of Cardui need fear the coming of her child. If Mrs. Unrath had taken Wine of Cardui before her baby came she would not have been weakened as she was. Her rapid recovery should commend this great remedy to every expectant mother. Wine of Cardui regulates the menstrual flow.
