(MONMOUTH SPECIAL)

A basket ball team composed of boys from Dallas College and public school played a team from the Training Department Saturday night. In team work and goal throwing honors were about even, neither team showing much ability. In weight the Dallas team had things all their own way, being much heavier and older than the T. D. boys. The game was won by Dallas, 12 to 6.

Some wonder if the Normal basket ball team is too small fry for Dallas and Willamette, or have they concluded that the Normal lads are a hard bunch to beat. Be the cause what it may, Monmouth has the distinction of being the only team that has kept the All-Stars from throwing a field goal during a game, and the showing they have made this season is such that any team that expects to claim championship honors should meet them and prove their claim.

A motor load from this place attended the prohibition speaking at Dallas Wednesday night.

Revival services are still being held at the Christian church.

A large delegation from this place will go to Forest Grove, Friday to the Oratorical Contest. The Normal has a strong representative in Miss Owen, and here is hoping that she may win. Miss Ada Aldrich, a member of the February class, has been chosen to fill the vacancy caused by the resignation of Miss Hillif.

The appearance on our streets of the stranger clothed in coat and cap of fur proclaims the presence of the home-seeker. Coming from the cold winter of the east to this land where storms are unknown, it is small wonder that he is so enthusiastic in his praise of Oregon and that year by year the number of people coming grows larger. A review of the real estate dealer in this locality shows that all the farms offered for sale have been bought by men from the east and an interview with these men elicits the fact that they are all well pleased with the country and that they

would not consider a proposition to sell their farms and return to their old homes.

Miss Stella Hampton went to Sherman county this week, where she will teach school.

Morris Fowle, of Airlie, spent several days here this week.

The Physics Club met Thursday evening with a good attendance. An interesting program was rendered. At the end of the program the query box was opened and some lively discussions followed.

The literary societies are in a flourishing condition and are doing good work. The Vespertine Society recently had an Oregon program consisting of sketches of the lives of some of our Oregon authors, selections from their works, songs composed by Oregon writers, two violin solos and a tableau entitled "A Common Oregon Scene." The Invincible Society spent a profitable evening last week with Wordsworth and his works.

The work of papering the chapel is almost completed. It is very attractive in green and gold.

The regular meeting of the Y. W. C. A. was held last Monday. The subject was "Endurance" and some very interesting and helpful instances of endurance in real life were given. A business meeting resulted in the election of the following officers: President, Miss Constance Whealdon; vice president, Miss Norma Daniels, recording secretary, Miss Gertrude Eddy; corresponding secretary, Miss Alma Stone; treasurer, Miss Jennie Neal. The members are preparing for a candy and banner sale to begin next Thursday, for the purpose of raising money to send a delegate to Capitol in May.

Wednesday evening about forty people, of Monmouth, took a special motor for Dallas to hear a lecture by Mr. Oliver W. Stewart, of Chicago, chairman of the National Central Committee of the Prohibition party. A large and enthusiastic audience was present. The lecturer illustrated his points with great clearness, and in oratorical excellence he is said to be second only to the inimitable John G. Woolley. Mr. Stewart was a member of the Illinois legislature, from Cook county.

The Executive Committee of the Board of Regents met last week. They decided to beautify the grounds in several ways, one of which is to plant a hedge in front of the college building. ## Proper Treatment of Pneumonia.

Pneumonia is too dangerous a disease for anyone to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneumonia always results from a cold or from an attack of the grip, and by the proper treatment of these diseases a threatened attack of pneumonia may be warded off. There is no question whatever about this, as during the thirty years and more that Chamberlain's Cough Remedy has been used, we have yet to learn of a single case of a cold or attack of the grip having resulted in pneumonia when this remedy was used. It is also used by physicians in the treatment of pneumonia with the best results. Dr. W. J. Smith, of Sanders, Ala., who is also a druggist, says of it: "I have been selling Chamberlain's Cough Remedy and prescribing it in my practice for the past six years. I use it in cases of pneumonia and have always gotten the best results." Sold by all druggists.

## Coughs

"My wife had a deep-seated cough for three years. I purchased two bottles of Ayer's Cherry Pectoral, large size, and it cured her completely."

J. H. Burge, Macon, Col.

Probably you know of cough medicines that relieve little coughs, all coughs, except deep ones!

The medicine that has been curing the worst of deep coughs for sixty years is Ayer's Cherry Pectoral.

Three sizes: 25c., 50c., \$1. All druggists.

Consult your doctor. If he says take it, then do as he says. If he tells you not to take it, then don't take it. He knows. Leave it with him. We are willing.

## RURAL CARRIER'S SNAP.

(BY ONE OF THEM.)

Tell me not in mournful numbers Rural carriers have a snap.

For the things that they contend with Would almost make a preacher snap.

He climbs into his little wagon, Drawn by steeds so full of vim,

As they prance along the highway All the people envy him.

Then there comes some winter weather Snow drifts, hailstones, mud and mire;

But the mail man is strictly in it, While the farmers hug the fire.

Bills for horse feed pour in on him, Bills for clothing, bills for board;

And the steed once sleek and glossy Has a backbone like a sword.

But he bravely struggles onward, Always trying to do his best;

When he's laid beneath the blue grass Then he'll have some time to rest.

## First Congressional District.

E. W. Prescott, regular correspondent of the Oregonian at Salem, to say concerning the congressional situation in the First district: "There are certain counties that generally conceded to be for Hermann. Among these are Douglas with 14 delegates; Klamath, Lake, 4; Coos, 9; Curry, 3; Yamhill, 5; Lincoln, 5, and if Brown be not a candidate, Clackamas, making a total of 62 that seem to be pretty certain for Hermann. Lane, 19, and Josephine, 7, are conceded to Harris, with Linn, 14, if Kelly be not a candidate, making the Lane County man 40 that counted certain. The north of the district is most in doubt though Jackson, with 12 votes, also disputed. Both sides claim good chance to win in Jackson, Polk, 9; Washington, 13; Yamhill, 11; Benton, 7, and Marion, 5. Harris is probably stronger in the north end of the district than Hermann and the question is whether he is strong enough to overcome the advantage Hermann has in Southern Oregon. It will require votes to nominate. Should he be but two candidates and the voting of delegates by county conventions show that one of the two a decisive majority, it is probable that only one name will come before the convention."

## Poultry Raising.

An impression prevails in the poultry raising is hazardous business, says The Spokesman Review, but the experience of two Palouse farmers proves that there is money in it. There is always a demand for chickens, and the high prices during the present winter evidence that large returns may be obtained by the careful poultryman, if his business is properly looked after.

Poultry raising seems to be somewhat neglected in the land Empire, even as a side line. It has been shown, however, by those who go into it and give industry careful supervision money out of it. There is also a good market, and, as a result, strong prices prevail for both chickens and eggs. Two young men from the Palouse country have made success of it; there is no reason why others can not be equally successful.
