FOR PRESIDENT

Theodore Roosevelt, of New York.

FOR VICE-PRESIDENT

S. W. Fairbanks, of Indiana.

FOR PRESIDENTIAL ELECTORS

J. N. Hart, of Polk County.

G. B. Dimmick, of Clackamas County.

A. C. Hough, of Josephine County.

E. A. Fee, of Umatilla County.

All over but the shouting.

Now how about your doubtful states?

An eastern paper gives assurance that horns handled gently will become as docile as butterflies. We'll take the eastern writer's word for it.

State Dairy and Food Commissioner J. W. Bailey has withdrawn as candidate for governor in favor of Dr. James Withycombe of the Oregon Agricultural college.

Safe-crackers with their nitro glycerine cannot affect the stability of a Polk county bank. Burglars trained at the work put in Friday night blowing off the vault and safedoor of the bank at Monmouth and on Saturday the bank was doing business as usual.

Oregon has entered upon a new era. Conditions are now to be met that never before confronted the citizens of the state. The Lewis and Clark Fair to be opened a few months hence is a big thing for a young state whose people have been noted for conservatism. The Lewis and Clark Exposition will be a national affair. For its maintenance the state has appropriated half a million dollars, the largest sum ever appropriated out of Oregon's state treasury for any one purpose. The people of Portland and vicinity have raised almost another half million. The national government has appropriated a quarter million. Other states of the Union have made fairly liberal appropriations for this Lewis and Clark Centennial and considerable money will be spent by foreign governments in putting exhibits before the world at this Fair. Whatever may be thought of the advisability of the undertaking in the first place, like the Philippine possessions, it is now on our hands.

Immigration has been coming into Oregon at a rate never before known. The Lewis and Clark Fair is going to further stimulate immigration. The low rates made by the trans-continental roads and the opportunity to visit the Northwest, and see the resources and inducements, is sure to turn eastern travel westward which presents a condition that must be met or ignored. Twenty-two of the thirty-three counties of the state have asked for space to make an exhibit of their resources at next

with the possible exception of such counties as Grant, Harney and Curry, where transportation is a serious obstacle, will exhibit. Polk has the advantage of her sister counties in having won the blue ribbon on two successive years at the State Fair. It is now up to the county to say whether or not she will enter the competition at the Lewis and Clark Fair. This leads up to a discussion of Polk county's court and its attitude toward the Fair and this phase together with the court's relation to public matters in general will be treated in another issue of the West Side Enterprise.

THOMAS A. EDISON, the inventor, in mapping out the problems of the future, gives first place to the necessity of fighting the bacteria which give us our diseases. Next to the actual bacteria of disease, the mosquito and flies are the most dangerous enemies of man. The mosquito with its bite injects into our veins malaria, yellow fever, and other fatal troubles. The fly, with spongy feet, collects the invisible germs of disease, spreads them over our food and poisons us with typhoid, cholera and other plagues of the human race.

Dr. Pierce, the eminent physician of Buffalo, N. Y., says, "If each person will consider his system as an army of men which he controls as a general, and will see to its proper provisioning and that it has plenty of ammunition in the shape of good red blood, he will be able to overcome the enemy in these germs of disease." Every healthy man has five million red blood corpuscles to every square millimeter of blood. The best tonic for increasing the red blood corpuscles and building up healthy tissue is no doubt Dr. Pierce's Golden Medical Discovery. This medicine has been on the market for over a third of a century and numbers its cures by the thousand.

Many popular patent medicines or tonics are made up largely of alcohol and will shrink the corpuscles of the blood and make them weaker for resistance. What is needed is an alternative extract, like Dr. Pierce's Golden Medical Discovery, made of roots and herbs, without the use of alcohol, that will assist the stomach in assimilating or taking from the food such elements as are required for the blood, also an alternative that will assist the activity of the liver and cause it to throw off the poisons in the blood. When we have accomplished this we have put the system in a fortified condition so strong that it can repel the germs of disease which we find everywhere—in the street-cars, the shops, the factories, the bedrooms, wherever many people congregate, or where sunlight and good air do not penetrate.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Neglected constipation means headache, heart-burn, sour stomach, foul taste in the mouth, biliousness, pimples, and palpitation of the heart. Constipation is promptly cured by Dr. Pierce's Pleasant Pellets. Use for mild cases, otherwise two.
