Exceeded All Expectations.

The vote for Roosevelt Tuesday exceeded all expectations. Early in the evening Judge Parker, the democratic candidate wired his opponent:

"The people by their votes, have emphatically approved your administration, and I congratulate you".

Roosevelt not only carried all states that had been listed as doubtful, but broke into the "Solid South" and carried Missouri, along with Folk, democratic candidate for governor.

The plurality for the republican candidate will be in the neighborhood of 1,800,000. The nearest approach to this was in 1896 when McKinley received a plurality of 850,000. Grants was the next highest plurality 762,991, received in 1872.

Though Oregon was conceded to Roosevelt the vote was a surprise to both republicans and democrats. The maximum estimate was 30,000 but he is over 40,000 in the lead.

PRESIDENTS OF THE UNITED STATES AND TERMS THEY HAVE SERVED.

CHARLES WARREN FAIRBANKS.

The indications with a few counties yet to hear from are the state is about 43,000 for Roosevelt. Parker sentiment was weak in Oregon and many rather than vote for him supported Debe the Socialist candidate.

Prohibition carried in seven of the twenty-three counties that voted on the question in Oregon. The counties that voted dry are, Yamhill, Benton, Gillman, Coos, Tillamook, Jackson and Curry.

OIL PROSPECTS

Oil Is Discovered in Well Being Deepened on Monmouth College Campus

Would Add Several Hundred Feet To Polk's Streaming Blue Ribbon

An oil excitement has threatened in this vicinity the past few days.

The Sloper Bros. in lowering the well at the State Normal college observed oil floating on the water Tuesday. The presence of gas had been noted before. Paper or any hard substance saturated with the oily substance, it was found burned readily. The faculty of the school and neighbors naturally became interested and sample bottles were sent to Eugene and Corvallis for chemical analysis.

It is possible some joker poured oil in the drill pipes, then again it is not at all improbable that by boring deep enough oil would be struck in that vicinity. The college well is only two miles southeast of the well sunk by the Hirschberg company on the Whiteatker place. The prospects there are promising enough that the company has ordered new machinery and will soon be sinking another well.

The report of the chemists on the samples of oil forwarded is awaited with interest. Oil experts agree that the indications for oil in the vicinity of Monmouth are good. When oil is struck a few hundred more feet will have to be added to Polk's blue ribbon.
