The total of appropriations by the last legislature is in the neighborhood of \$2,225,000 which is the largest of any preceding appropriation excepting two years ago when half a million was appropriated for the Fair. Many pages will be added to the statute books in new laws. The total number of bills passed by the House was 255; by the senate 151.

Bills of the most general importance to the state at large passed by both houses and to become laws are as follows: Placing state officers on a flat salary.

Compelling trunk railroad lines to grant interchange of freight car privileges to lateral lines, built by independent capital.

General fish law establishing uniform regulations in common with Washington and extending the open season in the Fall, besides increasing the license on cannerymen.

Establishing a uniform degree of eighth grade examinations in district schools.

Imposing a license on hunters.

Amending the direct primary law by requiring electors sworn in to procure signatures of freeholders in presence of election board.

Appropriating \$45,000 for Indian War Veterans.

Creating the Eighth and Tenth Judicial Districts.

Providing that insane patients shall be removed to the asylum by employes of that institution.

Making five pounds the legal tare on hops.

Requiring inspection of stock before shipment from the state.

Regulating fraternal insurance societies.

Exempting mining corporations from payment of the annual corporation tax when the output is less than \$1000 a year.

Establishing a whipping post for wife beaters.

Making it a felony for husbands to connive at the prostitution of their wives.

Requiring corporations and firms to pay employes in cash or checks on banks.

The Enterprise is pleased to note that the Granges of Clackamas county are taking the initiative in developing public sentiment and providing plans for the holding of a county fair annually. It has been the experience of other localities that the county or district fairs in actual results fully justified both the efforts and the expense of the undertaking. With the rapid settling up of Clackamas county by new arrivals from other states, the holding of a fair where can be had an interchange of ideas as to the adaptability of the soil for different products, the particular varieties that best thrive and facts pertaining to stock, there is offered an unequalled opportunity for promoting the agricultural interests of the community besides contributing to the prosperity of the entire section.

Success to the Grange in its efforts to arrange for a county fair. The place for holding such an exposition and other details can be adjusted with general satisfaction when public sentiment is aroused to a condition that the benefits attending these fairs is appreciated.—Oregon City Enterprise.

This paper hopes to be able to print the same with the word "Polk" substituted for "Clackamas," soon. Polk has a mid-winter livestock fair and it should have another at which all its resources can be exhibited. The old race track would afford ideal grounds and the West Side Enterprise would be pleased to see the Polk county grange take the initiative in starting an annual fair.

The Oregon State Normal School appropriation had a rocky road but finally got through. It was lopped off \$8000 in the lower house by "Josephine" Smith and not a voice but Vawter's raised against it. While the effort was on to have it put back in the senate Representative Fawk discouraged the movement on the ground that he didn't believe the house would concur. Then the Governor was talking veto of all the Normal school appropriations all the time. Senator Loughary and friends of the appropriation, however, convinced that the amount asked for, \$36,000, was not only just but absolutely needed, stayed by their guns and the school has \$36,000 to go on for the next two years. The perpetuation of this mother of Normals is now up to the board of regents and faculty. The feeling is general that the Normal school business is overdone in the state. There are too many poorly equipped schools. The demand on the state treasury for educational purposes has become enormous. A pruning down is inevitable among the state aided schools and their friends better understand now than later that it is a question of the survival of the fittest.

Hon. R. D. Hume, the fish king of Rogue river, was a lobbyist at the legislature. He opposed a fishing bill advocated by Representative Burns of his district and during the session issued and circulated a circular among members of the legislature calling Burns a "Sneaking, cowardly rascal unfit to associate with honorable gentlemen." Mr. Hume has been sued for \$15,000 damages.

To be in a five to one minority, Smith of Josephine made quite an impression in the lower house of the legislature. In five minutes time he knocked \$18,000 off the Normal school appropriations and motions that had been tabled were called up and passed by Smith while some members were getting ready to ask "What are we voting on?"

Startling but True

People the world over were horrified on learning of the burning of a Chicago theater in which nearly six hundred people lost their lives, yet more than five times this number or over 3,000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have warded it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and I believe saved her life when threatened with pneumonia." W. D. Wilcox, Logan, New York. Sold by P. M. Kirkland, the druggist.

Pointed Paragraphs

Some men have no time to rest because they are kept busy dodging work.

Our most successful financiers began life on a farm. Cassie Chadwick was once a bashful milkmaid and pulled tarap greens for dinner long before she ever thought of pulling bankers' legs for the "long green."

A Georgia woman's mouth "froze open" during the recent cold wave in that state. But no one could expect a woman's mouth to freeze shut, could he?

Many a man who has given marriage serious thought is still in the bachelor class.

Some people make themselves at home wherever they may be, except at home.

When a political orator calls the opposing candidate a thief it is the voter's cue to laugh.

Kisses which a young man may acquire against a girl's will are not worth the effort.

After living on bread and cheese and kisses in a cottage for about a month the young married couple begins to cut out the kisses.—Chicago News.

Reading old love letters is like eating warmed-over soup. It is safest to let them stay tied with blue ribbon.

Afraid of Strong Medicines

Many people suffer for years from rheumatic pains, and prefer to do so rather than take the strong medicines usually given for rheumatism, not knowing that quick relief from pain may be had simply by applying Chamberlain's Pain Balm and without taking any medicine internally. He has been permanently cured by the free application of Chamberlain's Pain Balm. For sale by P. M. Kirkland the druggist.

It will pay you to keep Chamberlain's colic, Cholera and Diarrhoea Remedy in your home. It costs only a quarter. Sold by P. M. Kirkland the druggist.

Itch—Ringworm

E. T. Lucas, Wingo, Ky., writes, April 25, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable. I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Lintment cured me completely and permanently. Since then I have used the lintment on two separate occasions for ring worm and it cured completely. 25c, 50c and \$1.00. Sold by A. S. Locke.
