In the judgment of this paper, it would be unwise to invoke the referendum on House bill No. 370 in order to get at the school appropriations. This bill carries appropriations amounting to over a million dollars, including the state institutions and a variety of other appropriations.

The people cannot pick out any item or class of items to pass upon but must vote upon the bill in its entirety. Governor Chamberlain did not see fit to veto the bill as it stands though threats were made before it came to his desk. It is not at all certain that a majority of voters would favor turning down the entire appropriation and if they should not there would be the trouble and expense of an election for the experiment.

If the bill should be defeated at the polls it would entail no end of trouble and expense. Every institution for which money is appropriated in the bill, would be held up and the wheels of government blocked unless money lenders should come forward and offer to advance funds to carry out the purposes of the legislature in making the appropriation.

If money should be advanced for the penitentiary, asylum, soldiers' home, reform school, blind school, mute school, state biologist and for counties for support of non-resident poor, etc., there is no assurance that money would not also be advanced for the schools. All alike have the sanction of a legislature and by its failure to veto, the official sanction of the Governor. The voter would have no way of indicating which of the items met with his disapproval, and all that might afterwards be allowed by a future legislature or by the tribunal of the people, would be augmented by accumulated interest. Besides the institutions affected would necessarily be crippled.

The indications of an early spring are abundant. Crocuses and other flowers are blooming out. The warm sunshine of the past few days has started up the grass and grain, and sparrows are building their nests. It is unusually early and fears are entertained by some that a continuation of the genial weather will start vegetation only to be nipped by frost later. Others however believe Nature has decreed an early spring and their faith is strengthened by the activity of birds building their nests. These, it is cited are rarely misled by weather conditions and an early spring may follow this year to counter-balance the late one of last year.

One of the weighty reasons advanced in a speech to the legislature by Dr. Kuykendall as to why the Drain Normal should be kept on the state pay roll was that the speaker, Dr. Kuykendall, began the practice of medicine at Drain and every foot of the surrounding hills was in memory, dear to him.

Get some curly-haired physician to practice medicine in your village a few years, familiarize him with the surrounding hills and hollows; then send him to the legislature and ask for \$21,000 for a state school or some other purpose.

It is fortunate for the state the late president of the Senate has practiced medicine only in Drain and Eugene. Otherwise he would have bankrupted the state with school appropriations.

In his illness, County Judge Coad has the sympathy of the people of Polk county, and the West Side Enterprise joins with every citizen in wishing for his speedy recovery.

The day of securing state aid for schools by "log-rolling" is past. Hereafter, every school must go before the legislature or the people on its individual merits.

It is announced that "Jack" Matthews has retired as leader of a faction of the Republican party. Can the party stand it?

This is "House Bill No. 370" edition of the West Side Enterprise.

The Improvement League recently had an election of new officers. Let's hear from them.

Now is the time for the Improvement League to show signs of life.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Those who desire to take advantage of this rate should apply to nearest Southern Pacific agent for tickets. Agts: Oregon City, Harrisburg, Aurora, Hillsboro, Woodburn, Newberg, Salem, Sheridan, Jefferson, Forest Grove, Springfield, McMinnville, Brownsville, Independence, Eugene, Lebanon.

### Itch—Ringworm

E. T. Lucas, Wingo, Ky., writes, April 25, 1902: "For 10 to 12 years I had been afflicted with a malady known as the 'itch.' The itching was most unbearable. I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me completely and permanently. Since then I have used the liniment on two separate occasions for ring worm and it cured completely. 25c, 50c and \$1.00. Sold by A. S. Locke."

A writer in American Medicine says that the United States bank bills in general circulation cannot compete with most foreign money in decency of appearance. Abroad, he says, bank notes that come into private possession are fresh, clean and crisp, and he cites the custom of the Bank of England to cancel, destroy and replace all notes, soiled or not, that are presented for payment. Money has been accused of spreading infectious diseases, and perhaps our progressive health authorities will one day insist upon a periodical cleaning up of the stock in circulation.

War is declared against chest protectors, padded vests and other like devices by British medical authorities. The spine, however, especially in the region near the shoulder, should be kept warm, they say. The thin back waistcoat is "the undertaker's best friend" and mainly responsible for the hacking coughs. A close fitting shoulder cape of flannel or other warm material worn next to the skin and covering the base of the neck is a good protection and can be fashioned so as to avoid clumsiness.

It seems to have been a case of "like master, like man," when the Russian soldiers looted the shops and liquor saloons at Port Arthur after the white flag went up. The officers rifled the army treasure chests and despoiled the privates of their lawful pay.

A sixth moon has been discovered doing a periodical trick at lighting the planet Jupiter. Now, if a couple of extra moons could be sent this way the gas and other lighting trusts would abolish themselves and footpads turn to honest callings.

### Afraid of Strong Medicines

Many people suffer for years from rheumatic pains, and prefer to do so rather than take the strong medicines usually given for rheumatism, not knowing that quick relief from pain may be had simply by applying Chamberlain's Pain Balm and without taking any medicine internally. Rev. Amos Parker, of Magnolia, North Carolina, suffered for eight years with a lame hip, due to severe rheumatic pains. He has been permanently cured by the free application of Chamberlain's Pain Balm. For sale by P. M. Kirkland the druggist.

### Siletz Bargains

Depoe Charley has three bargains in land on the Siletz. It will pay any one wanting bargains in land to investigate.

One 80-acre tract lies on picturesque Devil's Lake. This is an ideal summer home, good fishing, good pasture, good tourist camping ground. The cascara tree grows on this place. It is offered for \$12 an acre.

Another 80-acre two miles from the mouth of the Siletz, near the cannery can be bought for \$10 an acre.

A third 80 acres lies on the south side of Depoe Bay and is all prairie land on which fat cattle are now grazing; can be had for \$12.50 an acre.

The owner invites any one wanting a piece of land to come and look at these tracts and then be governed by his own judgment. Address Depoe Charley, Siletz, Ore.

### Croup

Begins with the symptoms of a common cold; there is chilliness, sneezing, sore throat, hot skin, quick pulse, hoarseness and impeded respiration. Give frequent small doses of Ballard's Horehound Syrup, (the child will cry for it) and at the first sign of a croupy cough apply frequently Ballard's Snow Liniment to the throat.

Mrs. A. Vliet New Castle, Colo., writes, March 19, 1902: I think Ballard's Horehound Syrup a wonderful remedy, and so pleasant to take. Sold by A. S. Locke.

Startling but True

People the world over were horrified on learning of the burning of a Chicago theater in which nearly six hundred people lost their lives, yet more than five times this number or over 3,000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Every one of these cases of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have warded it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and I believe saved her life when threatened with pneumonia." W. D. Wilcox, Logan, New York. Sold by P. M. Kirkland, the druggist.
