## AMEND PRIMARY LAW.

Some are inclined to decry the effort of W. S. U'Ren of Clackamas to have the Direct Primary Nominating Law so amended so as to regulate as far as possible the use of money in campaigns. No argument has yet been produced against the proposed legislation but the effort is made to throw cold water on the proposal by aiming shafts of ridicule at the activity of Mr. U'Ren in legislative matters. The government, says the Oregonian, is divided into four departments—executive, judicial, legislative and Mr. U'Ren. This paper does not assume to account for Mr. U'Ren's interest in the adoption of the initiative and referendum amendment to the constitution and the enactment of initiative laws thereunder. Preparation of bills and circulation of petitions require time and money. Why U'Ren's interest and whence his pay are unanswered questions. The work he is doing is not carried on just for the fun of it. Probably he has sufficient income to give of his time and money is furnished by himself and kindred spirits, through patriotic devotion to the cause. Then aside from pecuniary considerations it no doubt is a source of great satisfaction to Mr. U'Ren to see his ideas engrafted in the statute books of Oregon.

But what Mr. U'Ren has done or is doing any one else may do. He has no monopoly on legislation under the new regime. The privilege is held out to every citizen and objection to amendment of the Primary Law or any other proposed legislation because U'Ren favors it, will not lie. That the Primary Law be amended to regulate the use of money is of itself meritorious. Candidates lavished money too freely in the late primaries. Without legislative restraint, corruption will follow. Regardless of the inexplicable activity of the U'Rens, a law requiring publicity of campaign expenses should be enacted. Let the next legislature take hold of the matter. If it does not it may be sure the people will at the election following.

### Brief and Breezy

Everybody would have more money if it really wasn't any use to them.

A miser was created to prove how little real comfort can be got out of money.

It is hard to climb to the top of the ladder, but it is easy enough to slide down again.

Sometimes the things we do the best are the things that are not worth doing at all.

The biggest fool thing—and we all do it—is shaking hands with trouble before you meet it.

Love after several sights is worth three times as much as love at first sight any time.

A wife's yearning capacity should never be larger than her husband's earning capacity.

"Meet me at Independence hop-picking time."

The Indians wont pick any hops in "dry" countries.

The strikers not having struck, there was no strike in Portland.

They are coming, twenty thousand strong—the hop-pickers.

The Willamette is too low for the boats to run since Albany and Eugene went dry.

If those earthquakes continue in New Mexico, Arizonians will be unanimous against joint Statehood.

John D. is on his way home. Wonder what he will think when he bumps into that Ohio indictment.

A Portland street car conductor who has been working 17 years for the company is said to be rich. Don't doubt it.

It will require a quarter million dollars to pay pickers to save the hops in the vicinity of Independence this year.

In the land fraud trials at Portland, Judge O'Day should not object to shadows, as long as his clients get the substance.

The newsgathering agencies are mistaken in assuming the public wants to be further regaled with the Thaw killing case.

Bootlegging in "dry" counties is not profitable when the offender is caught and fined \$500, as was the case in Yamhill county the other day.

The Mexicans have never found it a healthy business when they went "gunning" for Americans, and the threatened annihilation of "gringos" may not be a one sided affair, as the greasers will find out to their sorrow.

Dan Tarpley is nothing if not original. He was convicted with Puter and McKinley in the land fraud business. Last week Dan married and he had at his wedding all the land frauds defendants that could be reached.

McMinnville, Salem and other points are having public meetings and scientific talks on dairying. What's the matter with Independence where there is a big creamery and in one of the best dairy counties in the valley?

### A Tragic Finish

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province in Holland. In like manner Kenneth McIver, of Vanceboro, Me., permitted a little cold to go unnoticed until a tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation, caused by a neglected cold; but Dr. King's New Discovery saved my life." Guaranteed best cough and cold cure, at D. G. Dove's drug store. 50c and \$1.00. Trial bottle free.

### The Smile

that won't come off, appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face. If you keep this medicine on hand, you will never see any thing else but smiles on his face. Mrs. S. Blackwell, Okla., writes: "My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since." D. G. Dove.

### Modest Claims Often Carry the Most Conviction

When Maxim, the famous gun inventor, placed his gun before a committee of judges, he stated its carrying power to be much below what he felt sure the gun would accomplish. The result of the trial was therefore a great surprise, instead of disappointment. It is the same with the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy. They do not publicly boast of all this remedy will accomplish, but prefer to let the users make the statements. What they do claim, is that it will positively cure diarrhoea, dysentery, pains in the stomach and bowels and has never been known to fail. For sale by P. M. Kirkland, the Druggist.
