There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. THE BEAUTIFUL! THE FERTILE! —THE RICH VALLEY OF THE WILLAMETTE

presents more opportunities for the home-maker, or for the investor than any country under the sun. Development is rapid and the increasing value of city, town and country property will make any man rich who has the foresight to plant his dollars in real estate. Being free from extreme heat or cold makes this wonderful valley an ideal place of residence. Dairying, fruit-raising, stock-raising, hop-raising, grain-raising, the poultry business and many other avenues that are open for the money-maker makes it possible for the Willamette Valley to support in thrift a population ten times as great as at present. DOVE'S DRUG STORE

Value Received in Prescriptions

A prescription may be poor in two ways. It may be put up all right, but the drugs and chemicals used may be stale, or "off standard." Or the ingredients may be exactly right, and yet the full effects be nullified because it is poorly compounded, or put up carelessly. In such case, no matter how low the charge, you don't get value received, which is the essential part of the transaction. When sickness comes, consider well the reputation of the druggist to whom you take your prescription. One thing we perhaps need not add, if you bring it to us you are sure to get value received every time.
