NOTICE TO PATRONS.

Owing to the misunderstanding of the new farmer line rates which went into effect on December 1st, 1907, the Pacific Telephone & Telegraph Company deem it necessary to correct the impression received by some of the farmer line subscribers. The new rates are given below showing what the company furnishes and what the subscribers are to furnish for each class of service.

Exchanges which do not furnish all night service and toll stations, \$2.40 a year. Subscriber to furnish complete telephone line to switchboard and maintain the line. Continuous service exchanges of 100 stations or less, \$3.00 a year. Subscribers furnish circuit to city limits. Complete telephone and battery and maintain the above.

As will be noted the subscriber is to furnish complete telephone. The American Telephone & Telegraph Company of which the Pacific Telephone & Telegraph Company is one of the affiliated companies has been besieged by scores of farmer line companies and subscribers to allow them to purchase their own telephone and keep the lines in repair. This the subscriber claimed would lead to better maintenance work on the farmer lines and each farmer would be able to repair his own telephone which he could purchase and install as he desired.

This rate applies only to the contracts taken since December 1st, 1907 and all contracts taken prior to that date are not in any way affected. The subscribers of this company have no need to buy their telephones or in any way be disturbed. Telephones working on the five and one dollar a year rate, if disconnected, lose the right to the former rates and must be reconnected if service is desired on the new rates. In case the subscriber wishes to purchase his telephone and take the new rate he can do so by applying to the Central office.

The Pacific Telephone and Telegraph Company have made arrangements with the Western Electric Company, who are the manufacturers of the telephone equipment used by the Bell telephone companies throughout the United States and Canada, to furnish a new type of Farmer line telephone instruments for \$11.80 without batteries. The batteries are sold at twenty cents each, or sixty cents a set.

While the Pacific Telephone and Telegraph Company furnish telephone instruments, it should be borne in mind that the company is not in the business of supplying telephones but the business of the company is to sell telephone service and that they are to only sell telephones where requested by subscribers. It can easily be seen that the telephone sold by a company which have used telephones and manufactured them for thirty years is better equipped for use than a telephone made simply to be sold for profit without any consideration for the service which is to be received on it.

The subscriber can if he sees fit buy his telephone from anyone or any firm that deal in telephone apparatus.

He Got What He Needed.

"Nine years ago it looked as if my time had come," says Mr. C. Farthing of Mill Creek, Ind. Ter. "I was so run down that life hung on a very slender thread. It was then my druggist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one foot in the grave, but Electric Bitters put it back on the turf again, and I've been well ever since." Sold under guarantee at all druggists, 50c.

It is a great remedy and one of the best patent medicines on the market. I handle some others for the same purposes that pay me a large profit, but this remedy is so sure to effect a cure, and my customer so certain to appreciate my recommending it to him, that I give the preference." The Independence Orchestra will give a social dance in the opera house in this city this coming Saturday night. A general invitation is extended to all.

Death was on his Heels.

Joseph P. Morris, of Skippers, Va., had a close call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was on my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung disease in all the world." Sold under guarantee at all druggists, 50c and \$1.00. Trial bottle free.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and restoring nature in doing its work. The proprietors have so much faith in its curative powers that they offer \$100,000 Dollars for any case that it fails to cure. Send for list of testimonials.

Address P. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

The Original Package...

You can not help but like the idea of the Original package tea. It comes to you straight from the plantation. The package may be handled by scores of persons enroute from China, subject to all sorts of exposure, yet the contents are fresh, clean and pure. This is one reason for the great popularity of Chase & Sanborn's Original Package Tea. The least package, hermetically sealed, retains the full strength, flavor and aroma. It is the identical tea of China or India as they drink it here. Get a package of this high grade tea of F. S. Wilson and you will find it to be the best and the most economical tea you ever used.
