Nature has provided the stomach with certain natural fluids known as the digestive juices, and it is through these juices that the food we eat is acted upon in such a way as to produce the rich, red blood that flows through the veins of our body and thereby makes us strong, healthy and robust, and it is the weakening of these digestive juices that destroys health. It is our own fault if we destroy our own health, and yet it is so easy for any one to put the stomach out of order. When you need to take something take it promptly, but take something you know is reliable—something like Kodol For Dyspepsia and Indigestion. Kodol is pleasant to take, it is reliable and is guaranteed to give relief. It is sold by Dove & Williams.
