Nature has provided the stomach
 with certain natural fluids known as
 the digestive juices, and it is through
 these juices that the food we eat is ac-
 ted upon in such a way as to produce
 the rich, red blood that flows through
 the veins of our body and thereby makes
 us strong, healthy and robust, and it is
 the weakening of these digestive juices
 that destroys health. It is our own
 fault if we destroy our own health, and
 yet it is so easy for any one to put the
 stomach out of order. When you need
 to take something take it promptly, but
 take something you know is reliable—
 something like Kodol For Dyspepsia
 and Indigestion. Kodol is pleasant to
 take, it is reliable and is guaranteed to
 give relief. It is sold by Dove & Will-
