CONRAD KREBS ADVISES BEER

Enthusiastic Meeting Held in
Marion Square.

"MORE BEER: LESS MILK"

Large Gathering Listens to
Arguments in Salem of
Whiskey Vs Beer.

An excursion trip was made by a number of Independence business men Friday evening to listen to the arguments on the subject of "Whiskey vs. Beer" which was called at the instance of Conrad Krebs of Salem. More than a thousand people attended the meeting and more or less enthusiasm was manifest throughout the meeting. The meeting was planned for the purpose of working up public sentiment in favor of malt beverages to the abolishment of distilled liquors. Mr. Krebs, who was introduced by the president of the meeting, H. B. Thielson, made a very interesting and entertaining talk. His stories were refreshing and enjoyable to the audience. "What we want," said Mr. Krebs, "is the local option law amended so that the people can vote separately on fermented liquors. If this can be brought about every county in the state will vote to sell beer and not sell whiskey."

Following Mr. Krebs, Rev. Barr G. Lee delivered a dignified address. He had no apology to make to anyone for being present on this occasion he said. Neither had he anything to say, except perhaps in a general way, regarding the question of fermented versus distilled liquors. The time has come, however, when everybody should lend a hand to remedy the present condition growing out of the liquor trade. He came as a citizen, not as a churchman, he said, hoping to aid the cause of temperance. The church he said, has always urged the value of temperance but does not enter into politics or question of sociology. Rev. Mr. Lee said that if he had it in his power, and thought the people would sustain the move, he would absolutely abolish the liquor traffic. He thought however that the sentiment of the people at large would not support such sweeping measures. He thought that if saloons, are to be maintained, separate places should be kept for the sale of malt liquors alone, and that the proprietors of such places should be encouraged as much as possible.

Rev. Mr. Lee said that while he was pleased to raise his voice in favor of temperance at this time he could not say how long he would be in harmony with the men promoting the movement started last evening. He is not a member of the company of gentlemen promoting the new propaganda and might not agree with them in all things, but that he thought that in general they were working along right lines at the present time. The great need of the hour is to do away with intemperance.

Col. E. Hofer made an eloquent talk following Rev. Mr. Lee, directing his attention more towards the preservation of the hop industry which he declared must be recognized and regarded as a substantial institution of the state of Oregon. In his discussion Col. Hofer dealt at length with the inconsistency of attempting to wage a war on hops and hop growers when liquors of far more dangerous character could be made out of numerous other vegetable products. He brought out the fact that the so-called "charged" liquors, which are considered the most dangerous in effect, are made of various kinds of fruits, such as apples, prunes and grapes.

Loud calls for Rev. W. M. Robinson were heard, following Col. Hofer's ad-

dress, but the prohibitionists refused to take the stand, although he was in the crowd. As a finale to the program the Virginia Colored Quartette rendered another negro melody.

Boy's Life Saved.

My little boy, four years old, had a severe attack of dysentery. We had two physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea Remedy which cured him and believe that saved his life.—William H. Strolling, Carbon Hill, Ala. There is no doubt but this remedy saves the lives of many children each year. Give it with castor oil according to the plain printed directions and a cure is certain. For sale by P. M. Kirkland.

Robbers Attempt Irvine's Store.

An attempt was made to break into the store of Irvine's Grocery last Friday night. Marshal Collins discovered the attempt about 2 o'clock in the morning and reported it to Mr. Irvine. On examination he found where the would-be robbers had piled up boxes at the back door upon which they had climbed trying to make an entrance to the store. The attempt was frustrated through the timely appearance of the marshal on the scene.

Mr. Harden is right; it's the best of all medicines also for weakness, lame back and all run down conditions. Best too for chills and malaria. Sold under guarantee at all druggists 50c.

WILL PROJECT ROAD TO SALEM

L. Gerlinger, Jr., manager of the Salem, Falls City & Western Railway Company, definitely announced yesterday morning that it was the purpose of the company to extend its road from Dallas to Salem at once, and that the construction work would be begun immediately and rushed to its completion with all possible speed. A crew has already been put at work clearing brushwood and other obstructions from the right of way, and the grading crew will begin operations immediately. It will be a matter of but a few weeks until the more important construction work will be actually under way, and the proposed extension of the road will begin to assume tangible form.

The rights of way were all secured at the time of the construction of the Dallas-Falls City branch of the road, so that no delay whatever can be caused by that phase of the question. Every possible contingency has been foreseen and prepared for, so that the new line may be rushed through without interruption, and the citizens of Dallas may look to see regular trains running between this city and Salem early next summer.—Polk County Observer.

MEETS DEATH BY ACCIDENT

Mrs. Pomeroy Accidental Shot
by Husband.

PROSTRATED WITH GRIEF

The Husband and Family are
Prostrated with Grief Over
Sad Accident.

A serious accident befell Mrs. Thomas Pomeroy at her home two miles and a half on the opposite side of the river from Buena Vista which resulted in her death. Last Friday evening Mr. Pomeroy was out shooting at chicken hawks, which have been tormenting the chickens, when the gun was accidental discharged. Mrs. Pomeroy, who was in range of the weapon, received the charge, the ball entering just above the knee and ranging downward, coming out a few inches below the knee in the fleshy part of the ankle and severing an artery. Dr. Ketchum from Independence and Dr. Allen from Jefferson were summoned immediately and all was done that was possible but it seemed impossible to quench the flow of blood. Mrs. Pomeroy was removed to a hospital in Salem Monday having been brought from Buena Vista to Independence in a skiff and from thence on the Launch Independence. It was hoped that by artificial means it would be possible to connect the artery and thus save the limb from amputation.

She died from the effects of the wound and loss of blood Monday night at 12 o'clock.

Mrs. Abigail S. Pomeroy was born in Butler county, Penn., and at her death she was fifty-four years of age. She was a member of three fraternal orders—Eastern Star, Maccabee and Lincoln Emulity. She was a member of the Presbyterian church. She leaves a husband and two sons, Dole and Donald.

The funeral arrangements are in the hands of the Eastern Star and will take place from the residence in this city Friday at 1:30 p. m.

A doctor was summoned and the fractured rib was set and injuries attended. Although the boy was hurt seriously it is thought that he is convalescing.

Bert Morton, of Basin, Wyoming, and Mrs. Shaw, of Wyoming, who are visiting with friends in this city, were visitors to Newport Saturday. Their friends in Monmouth have the laugh on them over their Newport trip. Mr. Morton and Mrs. Shaw were among a hundred or more who were not able to get hotel accommodation at Newport and were forced to return to Monmouth.

Over Thirty-Five Years.

In 1872 there was a great deal of diarrhoea, dysentery and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained that record from a small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by P. M. Kirkland.

If you have property for sale I am now ready to list it.—Chas. E. Hicks, Enterprise office.
