

You Have to Eat

Why not make it

A PLEASURE

Many persons buy flour thinking that one kind is as good as another. When you buy cheap flour you miss all the pleasure there is in eating for no one can make good bread out of poor flour. One of the best brands of flour to be had in this market is the

Gold Dust Flour

made by the Sydney Power Co.'s mill at Sidney, Oregon. Just try

Gold Dust Flour

Buy one sack—the price is on y \$1.25—and the satisfaction and good bread you will have will linger long in your memory.

A "HEART-TO-HEART"

Before you come to town look over the advertising of the West Side Enterprise. So many compliments reach this office regarding the get-up of the paper that there is no question you are all well pleased with it. Confession has been made any number of times that the Enterprise is not only the biggest paper in Polk county but it is the best paper the county ever had. You have assisted largely in making it so by patronizing its advertisers. It is not because they have not been invited that some business firms of Independence have never advertised. They have been persistently implored for the six months we have edited the Enterprise. All argument is exhausted. We ask you now to patronize our advertisers. They are the people who are contributing to the big paper you are getting. It is not only an act of friendship to this paper that you do this. It should appeal to your personal pride that Polk county is being boosted as the Enterprise is doing. You desire that the county be represented by a good newspaper and if it has one you do not care for the subscription price. What you want is a GREATER POLK COUNTY and we are sure you will gladly throw in the mite of subscription for the agency of that end. Now, the subscription settled the question resolves itself down to the proposition of why does the merchant not advertise. There is possibly one of two reasons: that he does not appreciate his opportunities or that he does not love the editor as himself. The last is unfortunate. The first would indicate that he had missed his calling; that he should have enlisted in the Japanese army. Why? Because his vision of "Value Received" is obscured by a big iron dollar gripped so tightly that the eagle sweats. Do you think you will ever see your dollar again if he ever gets it? Not likely. All merchants who are successful know that advertising in newspapers is the first requisite of success. Meyer & Frank invest only in newspapers. They set aside a certain per cent of their business income for newspaper advertising and invest in no wild cat schemes. All the big department stores do this. Not one but all. On every \$1000 worth of business they spend \$20 in newspaper advertising. They spend that every hour of the day. Some firms don't spend that much in years. They are scared out. They are afraid they will have to build a brick block to take care of their increasing business if they advertise. Yes.

The value of advertising space in the West Side Enterprise is as substantial as the Oregonian and the results obtained from shrewd patronage of its space by one dry goods house alone in Independence will put every other out of business in five years. When W. A. Messner came to Independence who was doing the business of the business houses that are here now? Who is doing the business now? Which of them advertised? He advertised and built a business that when he retired from the mercantile field of this city is first in magnitude. That business was not done with us, but back files of this paper show that he used printer's ink in building that business. Now then, what business houses have gone down since Mr. Messner came to Independence? You don't mind if we hold you up to the light, do you? You never contribute to the advertising columns of the paper anyway, because advertising don't pay your business? Merchants, advertise in the newspapers and do it now. That's all in God's world this paper is for—advertising purposes. Before the year is out The Enterprise hopes to have 1500 subscribers on the list. Isn't that fine? We did not dare hope to do anything like that when we came to Independence. Well, it didn't look like it was here. It is, and you will see it done, too. We are "stirred up" and we do things when we get stirred up.

Oil of peppermint or oil of lavender put in an atomizer and sprayed around the rooms is said to drive all flies out of the apartments. It is worth trying when they persist in tormenting one beyond endurance.

HOME ENDORSEMENT.

Hundreds of Independence Citizens Can Tell You All About It.

Home endorsement, the public expression of Independence people, should be evidence beyond dispute for every Independence reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterance of strangers residing in faraway places. Read the following:

Mrs. Sarah Burright, living in Independence, Oregon, says: We have used Doan's Kidney Pills and have found them an excellent remedy for kidney complaint. My husband was suffering from a lame back and received but little relief from the remedies he tried. My son was also suffering from a weakness of the kidneys and in both instances they cured the trouble. I was also suffering from a bearing down sensation in my hips and a tired and languid feeling. I procured Doan's Kidney Pills at P. M. Kirkland's drug store, used them as directed and they cured the trouble. I am glad to have the opportunity of recommending Doan's Kidney Pills.

For Sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, Sole agents for the United States.

Shop Breakers in Monmouth.

Thieves broke into the meat market last week and relieved that institution of a lion of beef and a slab of bacon besides borrowing from the till all the ready cash on hand at closing time the night before amounting to two or three dollars. No trace of the robbers has been found. Entrance was made through the back door of the market. It would seem likely that there was more than one man connected with the robbery as there was taken more than one man could get away with. Several cans of lard were also taken.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and restoring nature in doing its work. The proprietors have so much faith in its curative powers that they offer \$100.00 reward for any case that it fails to cure, send for list of testimonials.

P. Springer has a good home, the property recently purchased of R. Simpson. His is a modern farm, something after those of the eastern states with their diversity of products. He has a fine bunch of cows the milk from which is separated and sold to the creamery here. He has twelve acres of corn adjoining his home that is something like the corn grown back in Iowa from where Mr. Springer came.
