Knowing that business makes business and that competition is the life of trade we have opened a saddle and harness shop, in Parish old stand, on the west side of Main St., Independence, where we shall be pleased to meet and supply the wants of the public in all that appertains to our trade. Repairing a speciality. Give us a call before going to Portland, Salem or elsewhere.

PARISH & PIPER.

In the stomach of Uncle Luke Mulkey's cow, butchered by Mr. Griggs last week, was found several nails, pieces of brass and other indigestible articles. As Uncle Luke has the reputation of feeding his cow better than anyone else in town, it looks strange she should turn for sustenance to iron and brass.

Obituary.

Died, at Brownsville, Or., July 8, 1880, Samuel Wilson, aged 71 years.

The above was a member of the United Presbyterian church, of which he became a member when a boy. He lived a consistent member of the same until death. He was a good citizen, a loving husband and a kind father. He was honest and upright in all his dealings. He leaves an aged wife and several children to mourn his loss; but they mourn not as those that have no hope, for they expect to meet him in heaven. His funeral was preached by James Worth, yesterday, in the Baptist church, to a large congregation, after which his body was laid away to remain until the final day of judgment.

—The Walla Walla *Watchman* says: For the last few days there is quite an excitement over some reports to the effect that Indians about Deep Breek, beyond Medical Lake, had murdered several families and were on the war path. There is no doubt some truth in the report, but how much of it is true, we are unable to state, for one can hear almost anything and most of it is bosh, when boiled down.

—The hull and cargo of the wrecked ship *Eldorado* were sold at Port Townsend on Monday to J. J. Hunt for $350.

EASTERN.

—CINCINNATI, July 13.—The thermometer to-day reached 90°. It was 88° at four this morning, and 86° at 10:30 to-night Seven cases of sunstroke occured, three fatal. Private thermometer marked 100°.

—The President has signed the commission of John B. Neil, of Salt Lake City, as Governor of the Territory of Idaho, vice Mason Brayman, whose commission expires July 23d.

—The "Battle of the Boyne" was generally celebrated throughout the Eastern States by the Orangemen. No riots occurred.

—Owing to the small appropriation by Congress for the government printing office for the current fiscal year, the discharge of 25 per cent. of the force now on duty will be necessary on the first of August.

—Reports have been received of heavy and damaging storms in Wisconsin and Michigan, although the injury was confined chiefly to crops, which are represented as having suffered great injury in some sections of both States.

—Simon Cameron has gone to the White Sulphur Springs, Va., to see his son, Senator Don Cameron, who steadily declines in health to the alarm of his friends. It is thought overwork may have brought a quick consumption.

—Terrible heat at Chicago; six deaths from sunstroke, harvest work suspended for a wide region thereabouts; thermometer was as high as 100° on Tuesday. At night it clouded up with slight rain and the weather moderated.

—A warm rain storm commenced at Minneapolis, Minn., Sunday night, and when not raining the weather was excessively sultry. Telegraph advices indicate that the storm extended over most of the State, certainly over all the southern part tributary to the main line of the St. Paul, Minnesota and Manitoba Railway. Unless cooler weather comes soon the heat will seriously increase injury to the crops.

GLEN HOUSE, N. H., July 13.—A terrible accident, caused by a drunken driver, occurred on the carriage road from Glen House to the summit of Mount Washington this afternoon, about a mile below the Halfway house. One of the six horse mountain wagons, containing a party of nine persons, the last load of excursionists from Michigan to make the descent of the mountain, was tipped over. One lady, Mrs. Ira Christer, of Alleghan, Mich., was killed, and five others, all Michigan people, injured. The driver is probably fatally hurt. His mistake was in driving recklessly around a curve.

Consumption Cured.

An old physician' retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive, and a desire to relieve human suffering, I will send, free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French, or English. MISCELLANEOUS.

LITERARY REVOLUTION AND UNIVERSAL KNOWLEDGE.

An Encyclopædia of 20 Vols., over 16,000 Pages; 10 per cent more matter than any Encyclopædia ever before published in this country, and sold, handsomely and well bound, in cloth for $10, in half morocco for $15, and printed on fine heavy paper, wide margins, bound in half Russia, gilt top, for $20—an enterprise so extraordinary that its success, beyond all precedent in book publishing, may be fairly claimed to inaugurate a Literary Revolution.

THE LIBRARY OF UNIVERSAL KNOWLEDGE is a reprint entire of the last (1879) Edinburgh edition of "Chambers's Encyclopædia," with about 40 per cent. of new matter added, upon topics of special interest to American readers, thus making it equal in character to any similar work, better than any other suited to the wants of the great majority of those who consult works of reference, and altogether the latest Encyclopædia in the field.

Specimen Volumes in either style will be sent for examination with privilege of return on receipt of proportionate price per volume.

Special Discounts to all early subscribers, and extra discounts to clubs. Full particulars with descriptive catalogue of many other standard works equally low in price, sent free.

Leading principles of the American Book Exchange:

I. Publish only books of real value.

II. Work upon the basis of present cost of making books, about one-half what it was a few years ago.

III. Sell to buyers direct, and save them the 50 to 60 per cent. commission commonly allowed to dealers.

IV. The cost of books when made 10,000 at a time is but a fraction of the cost when made 500 at a time—adopt the low price and sell the large quantity.

V. Use good type, paper, etc., do careful printing, and strong, neat binding, but avoid all "padding," fat and heavily-leaded type, spongy paper and gaudy binding, which are so commonly resorted to to make books appear large and fine, and which greatly add to their cost, but do not add to their value.

VI. To make $1 and a friend is better than to make $5 and an enemy.
