News of the Week.

From the Farmer. The rise in the Columbia this season has backed up the Willamette, rising the water at Portland lacked only two feet and four inches of being as high as it was in June, 1862. The Roseburg Ensign say that the continued rains this summer keep the Umpqua river higher than usual this year, which makes it somewhat inconvenient for people crossing at the different fords, and some narrow escapes have occurred this year.

July - The fibre of this plant is the article of which "gunny-bags" are made. We gave the article this name because we have no other convenient name. The seed of the jute sprouts well and makes good plants in Louisiana, and there is no doubt of the success of its cultivation there.

Men take to good dinners and creature comforts generally. Women, as a class, are self-indulgent only in dress, which implies opportunities to display their toilets.
