### SHEEP ON RESERVE. WEEKLY TRADE REVIEWS. Regulations Under Which Grazing Is

Permitted-No Oregon Stock in Washington.

The total number of sheep to be alserve during the coming season, under errs. Last year 260,000 were allowed on the reserve.

Cattle and horses are, also, to be alk wed on the reserve, the number of attle being limited to 5,500 and of orses to 1,000. These figures are tased upon the number of cattle and porses that have been estimated as going on the reserve heretofore. Each man desiring the privilege of

the range must make an application ment, will entitle him to a certain part of the reserve.

Each permit to graze will contain a qualifying clause, which provides that those accepting the permit will pay such charges, per head, for their animals as the secretary of the interior may hereinafter decide. According to previous suggestions and recommendations, the secretary is expected to favor a charge of 2 to 4 cents per head for sheep and 10 to 121/2 cents per head for

cattle and horses. The permits which are to be issued will prohibit Oregon sheep or cattle grazing on the reserves in Washington.

There has been much complaint regarding the invasion of Oregon sheep and cattle in Washington, and it is now the purpose of the department to prevent such invasion in the future and to reserve the grazing lands of Washington for the sheep and cattle men of

that state. Superintendent Sheller recommended. that approximately 250,000 sheep be allowed to graze on the reserve this year. His actual figures were a little less than the number allowed by the secretary of the interior.
