Coal for Market. In the country surrounding Stella,

PACIFIC COAST NEWS

Cowlitz county, Wash., it has been known for a number of years that croppings of coal have been discovered, and some prospecting and development work have been done. The coal assayed well, and it was comparatively easy of access, but for some reason it was found difficult to interest capital suffi-

cient to mine and ship the coal on a large enough scale to make it profitable, and the man who owned the most valuable properties in that locality had

not the means to do so himsalf. About six months ago the following capitalists of The Dalles became interested in the property: Hon. Malcolm A. Moody, J. M. French, J. B. McInerny and J. Nicholas. They employed a practical mining engineer who had had

experience in this character of work, and had a thorough inspection of the properties made. The result was that they formed a company giving the owner of the land a half interest in paid-up, non-assessable stock, while they agreed to furnish all the money necessary. They purchased machinery of the latest design in the East, and most of it has arrived and been set up. It is the expectation of the company to have coal from its mine on the

market within 60 days of a quality equal to any that is now used in the Northwest, and at a price very much below that at which it is now sold. In carrying out their present plans they will build a railroad from Stella, four miles up Cold creek to where the mine is located.

The Big Buffalo Sold.

One of the most important mining deals ever made in the Northwest, mmence hostilities." One of the whereby the former Big Buffalo mine onfederate generals in 1861 said his at Buffalo Hump becomes the property dea of success was "to get there fust- of Charles Sweeney, the Spokane capist with the mostest."-Detroit Free talist, has been consumated at Grangeville, Idaho. The sale embraces the Bert Rigley, Young and Robbins interests, representing one-half of the mine for \$125,000 cash. Sweeney had pre-

viously secured the other interests for which he paid about \$75,000. The \$1.00@1.25 per 100 pounds. deal on the property has been pending many months.

The newly discovered quartz pros pects on the Blue river, Or., reported about 'wo weeks ago, are attracting a great deal of attention. Miners and prospectors are heading that way from New Zealand. The government gives all directions, and already a lively mining camp is there. The discovery is in the vicintiy of Blue river falls,

ty imexperienced by miners taking in supplies.

ToPlant Tomatoes.

The Davidson Fruit Company, at Hood River, Or., has furnished about 5020 tomato plants to farmers who are going into the business of growing tomatoes for the canner?. P. F. Bradford has the supervision of the growing of the plants, and has visited the farmers and given instructions about setting

plant about 30 acres for the fruit com-
