Poor old Caesar, poor of rica, there will be a white race gere Shakspeare, poor old Napoleon! If to carry on the work of progress. they hadn't married they might have come famous.

Those who declaim about faults in the New England Journal of Education. of his war experiences: He sees with satisfaction "a tendency to bette teaching, better supervising, tered the service, but was not an extutions will welcone all reasonable

A St. Louis theater manager anmother-in-law jokes "do not go" in his playbouse. Since the days of Aristoph. anes the senile joke has had a place on the boards of the theater. Its bald. headed appearance excites disgust in people who enjoy a real bit of humor. Ill nature does not necessarily go with wit, and the joke as to mothers-in-law is founded on nothing less than ill-nature. The mothers-in-law are like the listeners. mothers, good, bad and indifferent, but mostly good. How any man can love his wife and hate the woman who gave her birth is almost inconceivable. Of course there are exceptions, but the exceptions prove the rule, and the rule is that your mother-in-law is entitled to your respect and gratitude.

Naturally collisions occurred be tween wheelmen and pedestrians and between wheelmen and drays, and one Her long-drawn-out, dull discourses of these cases, that of a boy who was wearied the congregation. But Mr. knocked off his wheel and run over by a garbage wagon, found its way into | reached the limit of endurance, and one court and by appeal to the court of last evening when she sat down, after talkresort, which has recently rendered a decision defining the legal rights of wheelmen in Pennsylvania. The deci- theless, I still believe in women speaksion of the Supreme Court in this case is that the bicycle has the same rights on the highway given by law to any A good business man never makes other vehicle. Wheelmen must keep useless acquaintances or tells business to the right, and in doing so if run P

over by a wagon or cart are entitled to MARVEL AMONG MEN. from the electrodes on the front of the the protection of the law. This is a sensible decision as well as sound law. While the bicycle is not so popular as PASSES 600,000 VOLTS OF ELECat first it has come to stay and must be accorded its legitimate rights upon the highways. The old rule of the road, requiring all vehicles drawn by horses to Before a Gathering of Medical Men keep to the right, has been in force so long that all drivers, sober and in their senses, obey it by force of habit. Its extension to the bicycle is, therefore, natural, easy and the most just solution of the new problem that can be furnished. No one will be compelled to acquire a new habit or conformato a new law.

According to the Chicago Journal it has been impossible to locate isponsibility for the demand for half-cent pieces. This is strange, for it was thought there could be no proposal in connection with the cheanening of our monetary system too small for some one to father it. It is gratifying to know, however, that there is difficulty in locating the man who wishes to bring the United States down to the level of that of China or Turkey. The Ottoman mone key siltem is evidently the beau ideal of the man who would introduce the vulgar fraction into our subsidiary coin. In Turkey the unit of value is the plastre, which is divided into 40 paras, while the para is divided into 3 aspes. As the plastre is only worth 4.4 cents, the para is worth a little more than a tenth of a cent and an aspe is worth a trifle over one twenty-seventh of a cent. When an American in Turkey wants to feel rich he goes forth and buys some 2,700 papes, which be spends with in ish hand over the barnin counters of the oriental bazars But Turkey is an aspe country and America is the land of the acco, the animr, the dime and the cont. not proporty. It repolets a 9 all the

त्र के का व्यवस्था विश्व के कि के कि के कि

conceived," ID. Roberts explained,

"while I was making experiments in

electrical therapeutics. I became co-

vinced that it could be done if the cur-rent were produced by a static ma

chine, and I immediately proceeded to do it. Static currents have no volume

and therefore do not kill. The ord

effect they can produce is that of a

slight burning. I was used to this sen-

sation from handling the machine in

my practice, and consequently the pow-erful X-ray stream did not give me the

tension. It is sometimes called Frank-

more than five feet long, six feet high

and three feet wide, is capable of gen-

erating 10,000,000 volts of @etricity.

Anybody could do the same thing un-

der the same conditions. This machine

while throwing off a prodigious amount

of energy, is much like a serpent whose

fangs have been removed. The major

portion of its destructive force is sub-

dued because its amperage is small,

owing to its peculiar construction. Of

course, it would be dangerous for a

eriment. He would probably be pain-
