THE ALAMO.

No Messenger of Defeat—The 192 Texans Exchanged Lives With 2000 Mexicans.

There is nothing in American history more thrilling and heroic than the Texans' defense of the Alamo Mission. Yet there is nothing to commemorate the work of that noble band of 192 men who [illegible] held the fort against 6,000 [illegible] [illegible] [illegible] the hands of the treacherous [illegible] his death.

STORY OF THE MASSACRE.

The defenders of the Alamo refused all overtures for surrender, which they well knew meant death at the hands of the treacherous Mexicans. On March 6, 1836, at 4 o'clock in the morning the attack was made. The Mexicans moved in silence and reached the walls. Ladders were placed in position, and just as the men reached the top there was a roar and a hail of bullets from the interior. Men fell in solid files. Some were shot and others clubbed to death. After a fight of a half hour some Mexicans managed to reach the courtyard, and the previous fight was nothing to what took place. The doors of the Alamo were barricaded with bags of sand neck high. Then came the battle, or rather massacre of the Alamo. The Mexicans advanced and attacked the Alamo. The handful of Texans behind the bags of sand fought like devils. It was a hand-to-hand encounter. It was muzzle to muzzle, bowie knife to bayonet, musket to rifle.

NO QUARTER ASKED OR GIVEN.

The Texans resisted as only men with their lives in their hands could resist. They abandoned one room only to make a stronger resistance in another. Finally a long room on the first floor was reached. This was the hospital, and there the fight was bloodiest. Fifteen Texans killed 42 Mexicans on the threshold. The fight lasted five hours. The last to meet death were Colonel Travis and Davy Crockett. When they fell every Texan had met death. The sight was a terrible one. The Mexicans had 2,000 killed and 300 wounded. An examination showed that every Mexican was shot not below the neck, and those who were not shot had been cut or clubbed to death. This showed the wonderful accuracy of the Texan fire.

SHOULD CONSULT MONETARY STATISTICS.

The Register says Messrs Hendricks & Eakin, of the First National Bank, have received a letter from Germany inquiring about election prospects next fall and asking if it will be "free silver, or good sound money." The Register adds that "the gentleman has several thousand dollars loaned out in the valley and is anxious to know whether or not to call it in."

We do not think the German will "call it in," however the election may go this fall. These are some reasons: If he took it to Germany he could only loan it for 3 to 4 per cent interest, while in Oregon it brings 8 to 10. Then he will probably find out before he calls his loan in that nearly one third of Germany's metallic money consists of silver, about a similar proportion as in the United States.

The Register might have [illegible] some [illegible] in [illegible] the public with such a statement [illegible] gold and silver circulation throughout the world. It would have found that however discriminated against in the halls of legislation, at the behests of capitalistic combinations, silver is "good sound money" the world over.

This is about the time of year when the hopbuyer braces the hopgrower up with stories of shortage and better price prospects for another season. Along in October, and later, that same buyer will tell about the extraordinary surplus that the year's crop has furnished. It looks as if the growers are in the hands of the Philistines and must submit to the little less than robbery.

Tired Out

And she does not understand why. Her work used to seem so easy. You could tell her whereabouts as she worked by the snatches of song which now and again overflowed her happy lips. And now she can hardly keep up. Her head pains, her back hurts, and she feels entirely worn out. What is the matter? The probability is that the stomach is disordered, the liver is not performing its whole duty. Poisons are accumulating in the blood, and unless these are removed, and the stomach and organs of digestion and nutrition cured and strengthened, there is liable to be a serious illness. There is no medicine can equal Dr. Pierce's Golden Medical Discovery for prompt help and perfect cure for diseases of the stomach and blood. It strengthens the stomach, purifies the blood, nourishes the nerves, and brings back the happy days of health, when life is all song and sunshine.

"I suffered ten months from a complicated case of liver complaint, constipation, indigestion, suppression of monthly function, and kidney disease, etc.," writes Miss Lula M. Brinie, of Jeon, Va. "I also suffered excruciating pain in my back and head. I am glad to say that six bottles of 'Golden Medical Discovery,' three vials of Dr. Pierce's Pleasant Pellets, and two bottles of 'Compound Extract of Smart-Weed' cured me entirely. I gladly recommend Dr. Pierce's medicines to all sufferers."

"FREE SILVER, OR GOOD SOUND MONEY?"

The attention of the Register and the German resident of Germany who "has several thousand dollars loaned out and is anxious to know if it will be "free silver or good sound money," "and whether or not to call it in" on account of presidential election prospects next fall, as reported by the Register the other day, are called to the following statement of money issued by the United States to October 1, 1899. It is taken from the World Almanac for 1900, a reliable authority:

GOLD.	
Gold coin	$ 857,839,178
ALL OTHER MONEY.	
Silver coin	557,445,709
Silver Certificates	405,107,504
Treasury notes	91,167,280
United States Notes (greenbacks)	346,681,016
Currency certificates	16,100,000
Gold certificates	135,501,119
National bank notes	243,372,223
Total all other money	$1,795,664,951
SUMMARY.	
Total stock of all kinds of money in the United States October 1, 1899	$2,654,488,024

If the German gentleman has the least idea that the gold coinage, which represents less than one-third of the money of the country, and that mostly locked up in vaults, stands solely responsible for the well being and prosperity of the country he should call his loan in as quickly as possible, forego the 10 per cent interest he is getting and take it over to Germany where he can probably get 4 per cent.

But we should not censure the poor German, who is probably ignorant of our financial system. A great party of this nation avers that gold is the only "sound money," and would build our financial structure on a money metal that represents less than one-third of the money that is required to do the business of the country. And the owners of the gold control that party, make its platforms, and dictate the legislation that shall be enacted when it is in power.

Douglas county has a veritable curiosity in the shape of a justice of the peace. A man was found dead near the railroad and the Roseburg justice held an inquest, a verdict of death from natural causes being returned by the jury. The Riddle precinct justice thought his jurisdiction was invaded and eased his official mind through digging up the buried body and going through the forms of an inquest, though the personal effects found on the body were not produced.

RIGHT OF CONTEST.—The right to contest for county officers provides thirty days from the date of election for contests to be filed. No move has been made by Mr Knox as yet.

Today's Salem Statesman: Rev. T B Ford, who has been attending the Willamette University commencement exercises, returned to his home at Eugene last night.

Prof E R Lake left Corvallis Tuesday for Paris, France, where he goes to study prune culture. His mission is the creation of a bill which passed congress, wherein there is appropriated the sum of $5,000, which is made available for the purpose of the trip.

McMinnville Transcript: Charley Redmond is at home again from Eugene, the University having closed for this year. Charley has been demonstrating the fact that the farmer boys of Yamhill are not slow when it comes to athletics, and has taken quite a number of races, etc., off the best brawn of Oregon and Washington.

A great deal of new harvesting machinery has been added this month to Umatilla county's equipments and when wheat ripens harvest will be pushed with rapidity, says the Pendleton Tribune. The only possible drawback in sight is a scarcity of men. Unless a small army is brought from a distance the farmers will be handicapped for lack of hands.

One of the roads leading into Eugene which should receive attention during the summer is the Mohawk road. During the past winter so many heavy loads of machinery were hauled over it that from the Mohawk bridge to Wendling it is cut up pretty bad. A good grade and crushed rock covering will do the right thing.

Baker City Democrat: James A Carter, a miner at the Baisly-Elkhorn mine, is one of the six fortunate winners of the "Trip to Paris" prizes offered to subscribers of the Weekly Examiner, of San Francisco. Instead of going to Paris, Mr Carter takes the cash. He is in receipt of a check for $867. Of this amount $367 is what it would cost to buy a round trip ticket from Baker City to Paris and the other $500 is the estimated amount of expense, allowing three weeks at the fair at the rate of $100 per week.

MORE GOLD.— It is reported that gold bearing quartz has been found along Quartz Creek and the South Fork of the McKenzie, and that several claims have already been staked out. A number of Eugene men have timber claims and homesteads in that locality.

PRACTICALLY COMPLETED.—The census of Eugene is practically completed. If any one has been missed will they please notify this office by mail, telephone or in person and we will see they are properly listed. This is important.

TEN MORE STAMPS.—It is stated on good authority that the Lucky Boy company will add ten stamps to their mill, making a total of 20, in a short time. The mine is showing up better every day.

TIMBER LAND FOR SALE.—160 acres of good fir and cedar, one-half mile from saw mill. Logging creek runs through land. Inquire of Frank Reisner, Ax Billy's store, Eugene Oregon.

Walla Walla has a "living wonder." A child was born to Mr and Mrs E E Ellison on May 20th. The child is a boy and weighs at this time, one and one-half pounds, and has not gained in weight since the day of its birth. It is exactly 15 inches in length, and an ordinary finger ring can be slipped over its hand to the elbow. The child is in perfect health and is finely featured. It is the fourth child born to Mr and Mrs Ellison, whose other children are normally developed.

"Waste Not, Want Not."

Little leaks bring to want, and little impurities of the blood, if not attended to, bring a "Want" of health. Hood's Sarsaparilla is the one and only specific that will remove all blood humors and impurities, thereby putting you into a condition of perfect health.

Lakeview Rebuilding

The Lakeview Examiner gives a list of a number of new business houses that will be built this summer to take the place of those destroyed by fire recently. The Examiner says:

"Work has begun in earnest Monday June 11, on many of the new buildings.

"We may not celebrate the 4th of July this year, but, we shall never forget the 22 of May.

"Dr Daly is commencing the construction of five brick buildings on grounds recently vacated—by fire."

Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on said at first it was a slight strain and would soon be well, but it grew worse and the doctor said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one-half of a 50-cent bottle cured me entirely. I now recommend it to all my friends. F. A. Babcock, Erie, Pa. It is for sale by W. L. DeLano.
