From all accounts the powers acted very hastily when they dispatched the relief force of 2000 men to Pekin. There seems to be no doubt that if the Chinese government so elects it can crush the command and not leave a man to tell the story. China, since the war with Japan, has been drilling her soldiers under the best foreign drillmasters, and providing them with the latest improved arms. If the international command reaches Pekin it only will be because China does not propose to make war on the combined powers of the world.

The Portland and Columbia River mills are manufacturing 1,750,000 feet of lumber daily. Of this amount the Portland mills are manufacturing approximately a million feet daily. Portland's lumber car trade exceeds that of any one point on the Pacific coast. Portland's rail shipments for the first five months in 1920 aggregated 4237 cars as against 2977 cars for same period in 1919—a gain of 1260 cars.

Send money to any part of the world. It is the best of its kind. It is made of the finest ingredients, and is the best of its kind. It is sold in bottles of 25c and 50c. All Druggists.

Very Unusual

It is very unusual for a regular physician of good reputation to endorse a proprietary remedy. We have often heard of cases where the doctor has secretly prescribed Ayer's English Remedy, but it is most gratifying to receive the following voluntary letter from C. F. Smith, M. D., the most successful physician of Oregon, N. Y.: "Messrs. W. H. Hooke & Co., New York City: I wish to add my professional testimony to the value of your English Remedy for Asthma, Coughs, Croup, Whooping Cough, and all other ailments of the throat and lungs. I have tried your remedy, and it has acted almost like a miracle, not only relieving, but permanently curing even one of the patients. I endorse the preparation as one of the most valuable additions to the practice of medicine."

SEND NO MONEY

Send money to any part of the world. It is the best of its kind. It is made of the finest ingredients, and is the best of its kind. It is sold in bottles of 25c and 50c. All Druggists.

HEALTH AND VITALITY

Cures Impotency, Night Emissions and Wasting Diseases, all effects of self abuse, or excess and indiscretion. Anervetonic and blood builder. Brings the pink glow to pale cheeks and restores the fire of youth.

"A NATIONAL CALAMITY."

The phenomenal jump in the price of wheat during the past three weeks has been made the text of not a few "prosperity" editorials from our brethren of the Republic press. The editors would have their readers believe that gold standard-protective tariff legislation is responsible for better wheat prices. They ignore crop conditions that are solely responsible. Here is a Chicago dispatch, of June 22, that fully explains the wheat market situation:

"The Times-Herald tomorrow will publish the crop report, published by Snow, the crop expert, who has just completed a two week's tour through the wheat states of Minnesota, North Dakota and South Dakota. He declares the situation a national calamity, and claims the wheat failure to be the worst ever known. He estimates the Dakota crop at only 90,000,000 bushels each, and Minnesota about 35,000,000, a total of 75,000,000 against 200,000,000 last year and 225,000,000 in 1919."

LARGE POLE OUTPUT.

The handling and shipping of poles is a big business. In the United States 5,000,000 poles are used annually by telegraph, telephone and light and power companies. These poles represent about 150,000,000 feet of lumber. Michigan cedar furnishes the principal material while the Southern states contribute chestnut and cypress. On the Pacific coast the shipment of cedar poles east is yet in its infancy. Sand Lake, Idaho, has been quite a center for this class of trade.

OREGON WOOD STATISTICS.

Forestry Agent Johnson informs the Portland Timberman that 400,000,000 feet of timber is consumed

annually in the state of Oregon for fire wood. When it comes to notice that the city of Portland burned 187,797 cords of slabwood and cordwood last year, the estimate does not appear very wide of the mark. The Southern Pacific, which burns wood exclusively on its Oregon lines, consumed some 60,000 cords of wood last year, and will probably use 75,000 cords this year.

The Blue Mountain wood company cut 15,000 to 20,000 cords each, annually. This wood finds a market in Baker City, La Grande, Walla Walla, and even Idaho. The steamboats on the Columbia and Willamette rivers consume enormous quantities of cordwood and keep a small army of men employed in felling and skidding it.

WHAT'S A MAN TO DO?

"Confidentially," said the undertaker's wife, "Mr Smith hasn't paid the bill for his wife's funeral yet."

"Isn't that scandalous?" exclaimed Mrs Gable. "I should think he'd be ashamed to let people see how little he thought of his wife."

"Yes, and his brother John, whose wife was buried, paid the bill the very next day."

"Huh! Peared like he was glad to get rid of her, didn't it?"—Philadelphia Press.

ANCESTRAL.

Puck.

Mrs Upperton:—Ah! Is it yourself or your wife who is descended from King Alfred?

Mrs Commonstall:—Neither one of us! It is our daughter Henrietta and son Percy.

W F Matlock, of Pendleton, arrived home Saturday from Dawson, where he went over the ice this spring. He places the gold output of the Klondike region at \$18,000,000 to \$20,000,000 for this season. He stated that 10,000 people, at the very least, were in Dawson when he left early this month. Mr Matlock says the mining methods have been so greatly improved over those employed in the beginning that what were then regarded as good only for winter diggings are now very profitably worked as summer diggings. The expense is thus much reduced, and the profit increased proportionately.

Becoming a Mother

Is an ordeal which all women approach with indescribable fear, for nothing so compares with the horrors of childbirth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipation of the coming event, and casts over her a shadow of gloom that cannot be shaken off. Thousands of women have found that the use of MOTHER'S FRIEND during pregnancy is a godsend to all women at the time of their most critical ordeal. Not only does MOTHER'S FRIEND carry women safely through the perils of childbirth, but its use greatly prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period, sold by all druggists at 50c per bottle. Send for free booklet to THE BRADFIELD REGULATOR CO., ALABAMA, GEORGIA.

MOTHER'S FRIEND

SEND ONE DOLLAR
