

SPECIAL SALE

This Week ON

Ladies AND Misses Bonnets

FOR 25c

HAMPTON BROS.

SITUATION MORE HOPEFUL.

23,000 Men and 5,000 Horses on Their Way to China.

Special to the Guard.

LONDON, July 9.—Saturday's more hopeful reports from Peking saying the situation was greatly strengthened by the rumor that Prince Ching is fighting in legations. Such allies will greatly assist the powers. On July 6th, 1900, Chinese attacked the foreigners with 12 guns, but retired after six hours, bombarding from guns of British cruiser, Terrible, operated by a thousand mixed men.

MEN AND HORSES FORWARDED.

Special to the Guard.

YOKOHAMA, July 9.—The government has sent twenty-three thousand men, and five thousand horses to China.

OFF FOR CHINA.

Special to the Guard.

KIEL, July 9.—The German Asiatic squadron left this morning for China.

OREGON TO BE DOCKED.

Special to the Guard.

WASHINGTON, D. C., July 9.—The Battleship Oregon has arrived at Chee Foo. She will be docked for repairs at Koro, Japan.

IN SOUTH AFRICA.

Special to the Guard.

PRETORIA, July 9.—Mounted infantry reinforcements under Mahon, drove 3,000 Boers east to Broenkerspruit. British casualties, 2 officers and 26 men wounded.

Special to the Guard.

SEUKAL, Orange River Colony, July 10.—The Boers have evacuated all positions in this section. They still seem determined, and it will take some time yet to subdue them.

A GREAT MEETING.

Special to the Guard.

LINCOLN, Nebraska, July 10.—Thousands of populists celebrated the action of the Kansas City convention today in nominating Bryan and Stevenson. Both the candidates were present and were enthusiastically received. The democrats will hold a grand mass meeting tonight, at which the candidates will be present.

A STRANGE PROCEDURE.

Special to the Guard.

LONDON, July 10.—It is officially announced that the Empress Dowager holds the reins of power in China. Sheng, the premier, claims that legations are safe, but the fact that ministers are not allowed to communicate is considered a strange procedure. Many doubt the statement of Sheng.

JAPS GOING TO PEKIN.

Special to the Guard.

LONDON, July 10.—Japanese representatives claim there will be no delay about getting in Peking. They think twenty thousand men, with what allied forces are on the ground can effect an entrance to Peking.

U. S. SOLDIERS FOR CHINA.

Special to the Guard.

MANILA, July 10.—The Fourteenth infantry and Fifth artillery, U S A, leave for Taku Friday.

HORTON MURDERERS PENNED

Indian Slayers Taken to McNeil's Island to Serve Their Term of Imprisonment.

Five of the six Alaska Indians adjudged guilty of the murder of Mr and Mrs Bert Horton of Eugene, last October, while camping in Lynn Canal, have begun serving their long sentences in the McNeil Island United States Penitentiary, to which they were committed by Judge Brown. They were taken to the prison last Friday by United States Marshal Shoup. Their total sentences is 172 years, as follows: Richtoo, 60 years; Williams, 50 years; Kautlee, 30 years; Klame, 20 years; Clenat, 20 years.

The iron facings for the new Davine building were placed on the grounds this morning. They came from Albany.

WILL NOT PICK HOPS.

Prices in Prospect Allow No Profit for Handling Crop.

OREGON CITY, July 9.—August Gebhard, a hopgrower of Wilsonville, stated today that the crop was promising but that few yards in his section would be picked, if the present possibility of low prices continued. It is evident that the growers will have to pay 40 cents per box on account of a scarcity of pickers, which would make it unprofitable to harvest the crop. Hopgrowers in that section do not favor pooling their crop with the State Hopgrowers' Association this year.

Union Scout: We have received a copy of the June number of the University of Oregon Monthly. It is a high grade illustrated publication and the prettiest picture in it is the grounds of the University of Oregon with its buildings and surroundings.

BOOTH-KELLY CO.

Offices of this Huge Corporation to Be Located Here Soon.

MEANS MUCH TO EUGENE.

Hon R A Booth, manager of the Booth-Kelly Lumber Company is in the city looking for suitable rooms for head offices of this company. He informs us they will be located in Eugene prior to August 1st. The private telephone lines will then be connected up from the head offices to the Wendling, Saginaw, and Cotarg mills and all the business of the company will be directed from this city.

This will virtually make Eugene the headquarters of this great corporation, and will mean much to our city. The GUARD is glad to learn this important news.

IN BOHEMIA.

Rieh Mines Now in Course of Development.

Sunday's Oregonian.

W. W. Gibbs, of Portland, a successful mining man, who has interests in the Bohemia district returned from there yesterday after spending several days investigating progress. A good many rich prospects are being opened up, he says, in addition to the mines upon which stamps are working, and he expects lively times there this summer and fall. Recent rains have rendered freighting and packing into the mines very difficult, as roads and trails are slow to dry. Even the wagon road in the open country, to Cottage Grove, is in bad shape for transporting heavy loads of provisions and machinery needed in the mountains, but after a few weeks dry weather a good deal of hauling will be done.

The Helena five stamp mill is running day and night on good rock, and the number of stamps will be increased to 10 in the near future. The Musick 10-stamp mill shut down on July 1 for a few days' repairing, and the stamps will be started again next week.

The owners of the Champion are preparing to resume work shortly. A rich vein has been struck on this property and a stamp mill will probably be erected this summer.

At the Grizzly mine, owned by the Burns brothers, a 300-foot tunnel follows a rich ledge of copper, gold and galena. The vein is three feet wide at present depth.

Professor Fairbank, of the University of California, is making a geological tour of the mountains of Oregon, and is now making investigations in the Cascade range, east of here.

A quantity of ore brought down by Mr Gibbs, from Wall Street group, assays \$50 in gold, and 25 ounces in silver. This might be called "surface rock," he says, as it was obtained at a depth of 10 feet from the top of the ground.

On the Confidence group a 200-foot tunnel is following a vein of rich rock. This property is on City Creek, lower down the mountain side than the Wall Street group, and is therefore easier of access.

Colorado men, he says, are taking a good deal of interest in Bohemia, and quite a number are in there already, although the snow has only just disappeared.

STREET IMPROVEMENT.

Contracts Let Yesterday for the Work.

The street committee of Eugene, has let contracts as follows for street work:

CHESTER STREET.	
Taylor & Gardner, grading.....	\$ 24 30
C F Croner, graveling.....	43 68

DIED.—Miss Christina Benson, aged 18 years, 6 months and 25 days died of consumption at 10 p. m., July 9th. She was the daughter of John Benson, who came here from Minnesota about one year ago. The funeral will be held at 4 p. m., July 10th, at the family residence one mile west of Eugene; interment to be made in I O O F cemetery.

Princeton Review: W A Booth leaves today for Eugene, where he goes to meet his father, who will accompany him home.

EUGENE SAW MILL.

Lumber Will Be Sawed by the Last of This Month.

LOGS NEARLY HERE.

Work on the new Eugene saw mill, on the river bank, just west of Skinner's butte, is being pushed vigorously. The boilers are in position and the engines are partially set and all the other machinery is being gotten in readiness. The first floor of the mill is already about completed. It is confidently expected that the mill is sawing logs before the first day of August.

The log drive, for the mill, 2,000,000 feet, will commence arriving against the boom within one week.

THE LUCKY BOY MINE.

Machinery Goes Day and Night—Will add More Stamps.

Grants Pass Mining Journal.

BLUE RIVER, July 3.—The machinery of the Lucky Boy 10-stamp mill has been kept going day and night, without a stop, except for repairs, ever since it was started last December. Concentrators were added to the mill during the winter, and the company will soon begin shipping concentrates. The company has decided to add a 10-more stamp to the mill, and will also put in a small saw mill.

A contract has been entered into between Joe White, owner of the Sunset mining claim, and Dr Candiani, of Portland, wherein the latter is to receive a one-third interest in the Sunset in consideration that he erect a five stamp mill on the property. The machinery for the mill has been ordered. The Sunset is located on the headwaters of Quartz Creek, on the Gold Hill side, and is one of the most promising claims in the camp.

Messrs Rice and Graham came down from Gold Hill yesterday with a collection of ore which fairly sparkled all over with the yellow metal. The rock found by them is said to be the richest ever found on Gold Hill, and assays thousands of dollars to the ton.

DEATH OF EDWIN STRATFORD.—Roseburg Review: Edwin W Stratford son of Rev J L and Emma Stratford was born in El Dorado, Kansas, March 11, 1882, and died at the home of his brother-in-law, Henry Stoen, at Comstock, this county, Sunday evening, July 8th, of measles. Edwin was employed in the Western Union telegraph office in this city up to a few months ago, and was a quiet studious boy who made many friends among his associates, and gained the respect and confidence of all. His early death is a sad bereavement to his parents, and the sympathy of the community goes out to them in the fullest measure.

Wm Preston has been elected president of a harness manufacturing establishment in the city of Portland the largest one on the Pacific Coast.

DEADLIER THAN WAR

Two Accidents at Camp Geer Yesterday—One Fatal.

PLAYING SOLDIER DAMGEROUS.

SPECIAL TO THE GUARD.
SALEM, July 9.—Roy D Gage, of Portland Company C, Third Regiment, was drowned here Sunday, swimming in the Willamette. The body has not been recovered. He leaves a widowed mother.

LEG BROKEN.

Sam R Stott, of Sumpter, Baker county, a member of troops B Cavalry, had a leg broken Sunday morning by a horse falling upon him.

FROM CAMP GEER.

Another Interesting Special From Our Correspondent.

CAMP GEER, July 9, 1900.

EDITOR GUARD: The soldiers are having an ideal time in camp. The location is excellent, the treatment of men by officers all that could be expected, and the weather just warm enough to make the boys work hard. It is something unusual for many of the boys to get up at 5 o'clock, make beds, eat breakfast, wash clothes and do a half days work by 10 o'clock, but they accomplish it all, and with no grumbling heard.

Running the lines at night is a popular pastime, especially with the Philippine boys. They teach many new tricks of soldier life to the "rookies" as the new soldiers are called.

The Fourth Regiment has already created a very favorable impression and have the distinction of going out in review tomorrow (Tuesday) night when Governor Geer makes his official visit to the camp. The boys are working hard and Eugene will have occasion to be congratulated in securing the band.

The loss of one of the Portland boys by drowning is a very sad event, and the soldiers have been as one in their sorrow.

The entire camp is attending strictly to duty. Company drill at 7, guard mount at 9, regiment drills at 10, and parade at 11, gives the officers and men opportunity to learn much of the practical part of military life.

Large crowds of Salem people are in the grounds especially of evenings, and take a lively interest in their guests.

H. W. R.

HORTON'S TRUNK.—John Zimmer informs us that most of the valuable articles that should have been in the late Mr and Mrs Bert Horton's trunk, consisting of jewelry, diamond rings, gold watch, guns, etc., were missing. The trunk received, outside of a ring or two contained nothing of value.

George Sanders, we understand, has received a letter from his home in Dakota, saying that his wheat crop is burned up. We also learn that he will move back to that state soon.

MACHINERY ARRIVED.

The Siuslaw & San Francisco Lumber Co Increasing Their Capacity.

West July 6.

The schooner Danielson which arrived here last Sunday brought in a large quantity of new machinery for the Siuslaw and San Francisco Lumber Co's mill at Acme.

There were two large boilers, an engine which are to be placed in the mill immediately and will increase the sawing capacity to 60,000 feet per day. This means a demand for several million feet more of logs each year to keep this machinery running and will furnish employment for more men to cut the timber and get it to the mill. The milling business of the Siuslaw is growing rapidly and is helping to build up the other industries.

PARTIAL CLEAN-UP. — Ashland Tidings: July 9th: Henry E Ankeny, one of the proprietors of Ankeny & Cook's famous Sterling mine, took with him, Thursday, to Jacksonville, nine real gold bricks representing 1276 ounces of the precious metal and valued at \$23,000. This is the second large clean-up made during the past few weeks and it will require more than a month yet to make the final clean-up. It is expected that the Sterling will give up over \$100,000 this year, and its proprietors are to be congratulated on their good fortune.

ANOTHER CALL.—County Treasurer Patterson today makes another call for county warrants. The amount of \$10,219.94 is set apart for this purpose at this time.
