# A Loud Voiced Bird.

A story runs that on a certain day two men, one of them very deaf, were walking by the railway. Suddenly an express train rushed by, and as it passed the engine emitted a shrick that seemed to rend the very sky.

The hearing man's ears were well nigh split, but the deaf man struck an ecstatic attitude. Then, turning to his suffering friend, he said, with a pleas-

ed smile: "That's the first robin I've heard this spring!"-Kansas City Independ-

In Japan handkerchiefs are made of paper, cords are twisted from it and imitations of cordova leather are fully contrived from it.

The contented man is never poor, the discontented never rich.

MADDENED ELEPHANTS.

The Great Brutes Often Driven Wild by Fearful Tusk Aches. "Zanzibar," said Robert Crawford.

"is the greatest market for South African ivory, which is brought there in large quantities from the interior. Tes ivory is placed in large warehouses from which it is either sold at once or else held therein for a better market. The man in charge of these warehouses was a very interesting character, an expert in ivory. He told me many curious things about it and among others propounded the following theory as an explanation of why ele phants go mad and occasionally run amuck.

"In the warehouse were a pair of showing me these tusks pointed out the fact that while one was complete and flawless the other was broken off at a mail box, and on the front of it is to the point and showed deep scratches people here are all well, only one ex-
