S. B. EAKIN, Vice President.

P. E. SNOODGRAN, Cashier.
L. H. FOSTER, Asst. Cashier.

SECOND CITY.

Captain Heath Says Eugene is Next to Portland.

Capt H. L. Heath, of McMinnville, is in the city and will go the Blue River mines tomorrow, where he has large interests. He informs us that Eugene is the next town in all of Western Oregon. He says: "Eugene's tributary timber and mining interests are what is booming her. Her streets are crowded with people doing trading, and dwellings and business blocks are springing up on every hand, while the other valley towns, on account of the failure of the grain crops, are dull and lifeless. Eugene is bound to make the second city of Oregon, if her people rustle, and I am satisfied they are made of that kind of material."

To Stump for Bryan.

CHICAGO, Aug. 15.—Col William R. Morrison will stump for Bryan this year. Col Morrison, who is now past seventy years of age, served in congress for many years. He was the author of the Morrison tariff bill, presented by the democrats in the early eighties, and providing for a horizontal reduction of the existing duties. Four years ago, while a member of the interstate commerce commission, he bolted both Bryan and Altgeld.

A GREAT VICTORY.—Not with arms and bullets, but with wheat. One of the awards at the Paris exposition is that to the O. R. & N. for the best exhibit of grains, grasses, seeds and cereals. These were raised at the O. R. & N's experiment station at Blalock, Umatilla county. There were fifty varieties of wheat alone. While the Oregon Navigation did the rustling the Northwest will receive the credit.

LANE COUNTY BANK

EUGENE, OREGON.

Established in 1882. Oldest Bank in the County.

A General Banking business in all branches transacted on favorable terms.

F. W. GOSBURN, Cashier

D. A. PAINE, Vice President
W. W. BROWN, Asst. Cashier.

CHINA ENCOURAGES BOXER

Minister Conger Believes "Boxer" Disturbances Were Sanctioned By Imperial Government

NO LATE NEWS FROM PEKIN

Special to the Guard.
WASHINGTON, August 21.—A dispatch from Shanghai, which is undated, bears practically no new information. It states that the wires from Tien Tsin have been cut, and no information has been received from that point. The position of the allied forces is unknown, on account of failure to get runners through with news. Many Chinese troops have taken the field, and the whole country presents a distinctly military appearance. A report that the allied army has entered the Sacred City has been received at Shanghai. This information alone shows that the dispatch must be several days old.

CHINESE TROOPS MOVING.

TIEN TSIN, August 16.—Five thousand troops have left Sung Lui Ching for Peit Sang, and another force of 2,000 have left for Tun Chow.

BLAMES CHINESE GOVERNMENT.

Special to the Guard.

WASHINGTON, August 21.—Minister Conger blames the Chinese government for the trouble which is now culminating.

Minister Conger in a report just received states that the allied relief force entered the city with practically little trouble. He states that no more deaths have resulted, and that all are well.

A desperate effort was made last night to annihilate the legations but without effect. This will probably be the last concerted attempt made by the Chinese.

The war department gives out some inside information contained in the report from Minister Conger. He claims that the statements that the Boxers are responsible for all the trouble and effort to drive out foreigners is a hoax, and that, on the contrary, the Chinese government is at the bottom of the trouble, and have used the name Boxer as a catspaw, with which to deceive the powers.

It is apparent that our minister has given good reason for his belief and in due time the department of state will act as it deems advisable in the premises.

SKAGWAY SHOOK FOR SEVENTY SECONDS.

Earthquake Split a Mountain, Dammed a Stream and Tore Down Two Buildings at Dawson.

CHICAGO, Aug. 20.—A special to the Record from Vancouver, B. C., says: The steamer Cutch, which has arrived from Skagway, brought news that the earthquake, on August 10, shook Skagway for 70 seconds, and was even more severely felt in Dawson. All the way down the river the shock was apparent, and at several places was particularly defined. At Dawson, two small government buildings in course of construction were toppled over. Arrivals from the Stewart river, half way down the Yukon to Dawson, say the mountain there was split in two. One stream was dammed up partially by fallen rock, and it turned into the newly formed canyon at the mountain. Five miles of this stream and two miles of the second tributary of the Stewart were left dry.

INSPECTING RAILROAD.—The following S. P. R. officials arrived here from the south last night at 9 o'clock in their special car: R. Koehler, road manager; L. R. Fields, superintendent; M. A. Grondahl, resident engineer, and J. O. Johnson, roadmaster. They remained in Eugene over night, and left at eight o'clock this morning for the north. They are out inspecting the roadbed, etc.

A HARD COUNTRY.—Mr Gosler, of Salem, just returned from Nome, gives the country a very bad reputation. He says: "Considerable robbery is going on and they chloroform their victims and rob them of everything they have. That there are 10,000 people there dead-broke and could not come home if the fare was 25 cents."

EUGENE MESS.—Ringling Bros' circus will not play at Eugene this fall. The only towns it plays are Salem and Medford. And the reason for playing those two towns is that the animals must be unloaded for a day.

The Ore-onia says it is likely the O. R. & N. Co will build a railroad from Portland to Frankford, a town at the mouth of the Columbia on the Washington side.

BIG FREIGHT TO MINES.

Large Quantities of Supplies Being Hauled to Blue River Mines Over Gate Creek Road.

Cal Young has just returned from a trip into the Blue River mining district. Mr Young came out down the Gate Creek wagon road, and says he was astonished at the volume of teaming that is being done into the mines, and the quantity of supplies that are being hauled in for winter and present use. He gives us the following notes as to the loaded teams that went into the mines over the Gate Creek road during the several days of which he had information:

Wednesday, August 15.—Four 4-horse and one 2-horse teams.

Thursday, August 16.—Three heavy and two lightly loaded 2-horse teams.

Friday, August 17.—Thirteen 4-horse and one 6-horse teams as close together as they could drive.

Monday, August 20.—Four 4-horse and two 2-horse teams.

Mr Young took in 744 feet of dressed lumber with one two-horse team, 740 feet with another, and doubled his teams but three times on the road. Dressed and seasoned inch fir lumber weighs three pounds to the foot, so it will be seen he hauled over 2,300 pounds to the span of horses.

GORED BY A MAD BULL.

Junction City Boy Had a Narrow Escape From a Horrible Death.

JUNCTION CITY, Aug. 20.—Walter Carter, 17 years of age, living west of here, was gored by a mad bull yesterday. The animal had been in a vicious mood for several days, and young Carter, on entering the lot where the bull was, took a pitchfork with him. The brute charged and Carter planted the fork in its nose. The bull did not stop, and when Carter was rescued his left leg was broken, back and chest bruised black and blue, and chin and lip split open. It was a miraculous escape from death.

He Was Run Out of Town.

Northern California is greatly excited over the running of a Chinaman named Ah Wing, the cook of Messrs. Western Union telegraph repairing crew, out of Edgewood, and the causes leading to it. Near where the crew were working is located the home of a farm laborer named Bassett, who was working at some distance from home as a harvesting hand. He left his 10-year-old daughter and a younger boy at home in charge of the house. Ah Wing, noticing the children alone gained admission to the home on a pretense and made base proposals to the girl, who becoming alarmed sent her young brother to a neighbor's house for assistance. The Chinaman becoming alarmed fled to a near by China camp.

The neighbor's wife hurried to the assistance of the children and hearing the story of the Chinaman's proposals informed her husband, who gathered a number of the men of the town and went to the China camp, along with the girl. Three Chinamen were found there, one of whom she identified as the one who had been in her home. The white men immediately proceeded to mete out punishment to Ah Wing. He was beaten without mercy, his queue cut off and driven south on the railroad track by the infuriated citizens' face a bruised and bleeding mass of flesh, and howling with pain and fright. Only the fact that the news had not been spread long or far prevented the Chinaman from being lynched.

A NEW PUBLICATION.—The Northwestern Elk, published by Henry Page, at Salem, Oregon, has been received at this office. It is devoted to the interests of the Benevolent and Protective Order of Elks, and is a journal of considerable merit. Mr Page was at one time in charge of the printing plant of the University of Oregon, and has many friends in Eugene who will wish him success in the publication.

CONCENTRATES.—Ray Frank and Bert Aggar arrived here yesterday with a load of concentrates from the Blue River quartz mill. In due course of time they will be shipped to the smelter at Tacoma to be treated. They are rich in gold.

BORN.—In Portland, August 15, 1900, to Mr and Mrs Louis Steinheiser, 420 East Tenth street, a son. Louis used to be a resident of Eugene.

The Ashland Tidings has this about a plant grown from Philippine Island seed: Considerable attention has been attracted by a small patch of corn in the garden of James Thornton on North Main street. Some of the stalks have already attained a height of 12 feet and have as yet only begun to show the tassel. The variety is not known further than that it is "Manila corn." The seed from which it grew was brought home by Lieutenant J. E. Thornton.

Hop Contracts Filed.

SALEM, August 21.—Twelve hop contracts were filed in the recorder's office today. This is the largest number filed in one day this season. The contracts were dated at various times since the middle of June last. The price was 10 cents in every instance. The buyers were Livesley & Co, of Salem, 39,000 pounds; A Lehman & Co, Cincinnati, 47,000 pounds; J Wolford & Co, Silverton, 13,000 pounds; Valentine Lewis, New York, 10,000 pounds; total, 129,000 pounds. It is reliably reported that dealers at Independence are offering 12 cents for hops.

FIRST 1900 HOPS

S. Smeed, the Veteran Hop Grower, Leads the Procession.

Stephen Smeed, the well known hop grower, of Waverlyville, brought in today 36 bales of Fugles hops to be shipped to Milwaukee, Wis. He says he thinks they are already sold as he sent samples a week ago by mail with such instructions, but he has no idea of the price. He commenced picking these hops one week ago yesterday; that they are choice; that he secured 40 bales where last year he only had 38; that they made from 1500 to 2000 pounds per acre. This is a very large yield for this variety of hops.

He says he has the largest crop of hops he ever raised in his 20 years' experience in Oregon, and they are free from lice than for years. He thinks Oregon's crop this year will surprise everybody because they will all be picked as the vermin has not hurt them as in former years, thus preventing the picking of a considerable portion of each crop.

He says that he does not think the prices will be high, and will sell as soon as he has his crop in the bale. The dealers always talk high prices just before picking. High prices cannot prevail this year, or I am badly mistaken, said Mr Smeed.

As an aftermath to the event of a couple of weeks since, in which Walter J. Shelley, at that time night clerk of the Hotel Eugene, claimed to have been held up on North Willamette street and relieved of \$90, left in his care by a boarder at the hotel, Shelley was this afternoon passed under arrest by Sheriff Withers, charged with larceny by bailie of the sum of \$90. He was placed under \$100 bonds for his appearance before Justice Wintermyer tomorrow afternoon at 3 o'clock. The bonds were furnished by J. W. Lakko and H. A. Vincent.

Walter J. Shelley Charged With Larceny by Bailie.

As an aftermath to the event of a couple of weeks since, in which Walter J. Shelley, at that time night clerk of the Hotel Eugene, claimed to have been held up on North Willamette street and relieved of \$90, left in his care by a boarder at the hotel, Shelley was this afternoon passed under arrest by Sheriff Withers, charged with larceny by bailie of the sum of \$90. He was placed under \$100 bonds for his appearance before Justice Wintermyer tomorrow afternoon at 3 o'clock. The bonds were furnished by J. W. Lakko and H. A. Vincent.

Sued for Divorce.

Salem, Aug. 20.—Bertha P. Lewis filed a divorce suit against Alexander Lewis, in Judge Boise's court Saturday. They were married in Lane County July 26, 1861. A divorce has been asked for by the plaintiff on the grounds of inhuman and cruel treatment. They have one child, Callie P. Lewis, a daughter, aged 8 years, and plaintiff also prays for the custody of same.

Portland Telegram, August 20: The 3000 tons of hay contracted for by the government for shipment to Manila is being prepared rapidly and will be ready for shipment in September. The hay, as specified by the government, must not contain over one-quarter clover or other inferior grade, and also must be pressed to a size not exceeding 75 cubic feet to the ton.

It has been discovered that James Ebert has 2,000 or 3,000 bushels of wheat in his warehouse, in this city badly infested with weevil.

John Ingham, we are pleased to announce, is recovering nicely from his recent illness. He took his first buggy ride out today since taking to his bed.

James Hillmire, a driver of a truck had one of his feet mangled at the depot yesterday, which will cause him to take a few days' vacation. A large piece of iron fell upon it.

David Comstock, of Deer Creek, has a Barred Plymouth Rock pullet which was hatched on February 22, 1900, began laying on July 3, and brought off a brood of chicks this morning, August 11, says the Roseburg Review.

DISASTROUS TO SHEEP.

Patent Dip Causes Loss of Sixty Head at Monroe.

MONROE, Or., Aug. 21.—M. L. Barnett, a stockman of this place, lost 60 head of sheep last week as a result of using patent dip. Whether the directions accompanying the condensed fluid were wrongly construed, or the dip was of a poisonous nature to sheep, is not known. Mr Barnett expresses the belief that the "cure" was worse than the scab itself.

OUR MINES.—Corvallis Gazette: J. E. Andrews returned Sunday morning from an outing of a few days in Eugene and Cottage Grove. In speaking of the grain crops in that section, Mr Andrews stated that they were really poorer than they are in Benton, and in one instance a man is reported to have threshed only 50 bushels of wheat from 24 acres. However, he states that the mines of the Bohemia and Blue River districts, and the lumbering industry will tide the people over, and they will not feel the crop failure as they would had wheat-raising been their sole support.
