In a speech delivered at Minneapolis July 17, Governor Roosevelt said: "A more wicked absurdity than the Kansas City proposition for dealing with the Philippines was never enunciated by the representatives of a political party."

Here is what the Kansas City platform says:

"We are not opposed to territorial expansion when it takes in desirable territory which can be erected into states in the Union, and whose people are willing and fit to become American citizens.

"We favor expansion by every peaceful and legitimate means. But we are unalterably opposed to seizing or purchasing of distant islands to be governed outside the constitution, and whose people can never become citizens."

In his volume entitled "Life Work of Thomas H Benton," on page 235, Governor Roosevelt deciares these noble sentiments:

"Not only the Columbia, but also the Red River of the North, and the Saskatchewan and Frazer as well, should lie wholly within our limits, less for our own sake than for the men who dwell along their banks. Columbia, Saskatchewan and Manitoba would, as states of the American Union, hold positions incomparably more important, grander and more dignified than they can ever hope to reach either as independent communities or as provincial dependencies of a foreign power that regards them with a kind of tolerance akin to contemptuous indifference. Of course, no one would wish to see these or any other settled communities now added to our domain by force; we want no unwilling citizens to enter our Union. The time to have taken the lands was before settlers came into them. European nations war for the possession of thickly settled districts, which if conquered, will for centuries remain alien and hostile to the conquerors. We wiser in our generation, have serzed the waste solitude that lay near us, the limitless forests and never-ending plains and valleys of the great, lonely rivers, and have thrust our own sons into them to take possession, and a score of years after each conquest we see the conquered land teeming with a people that is one with ourselves."

about 100 to the square mile. And that population is mainly Malay with a considerable sprinkling of Japanese and Chinese, together with many mixed bloods.

Governor Roosevelt last July "wanted no unwilling citizens to enter our Union." The president whom he accompanies on the ticket for whose election he is striving, has 65,000 soldiers and numerous warships over in Asia, merely to "pacify" the Filipinos, as President McKinley puts it, and we suppose, to make them "willing." He asserted that "no one would want to see these or any other settled communities added to our domain by force," yet is daily making speeches in defense of the imperialistic policy of waging war against the native owners of a tropical country that lies almost against Asia, eight thousand miles from our Pacific shores. Roosevelt author. unwittingly framed an unanswerable indictment against Roosevelt, candidate for vice-president.

LIBERTY THE ISSUE.

W Bourke Cockran the Tammany orator, who supported Mc-Kinley four years ago wrote a strong and ringing letter in support of Bryan to the Indianapolis Liberty convention. He closed as

be ready to bear his part. Hesitation to avail ourselves of the lead ership under which alone opposition to imperialism can be made effective, through distrust of the leader's views on an economic question not now an issue, would be as senseless as besitation to employ a surgeon on whose skill depended the prospect of life, through

d slike of his religious beliefs. that we, who four years ago sacrificed our political prospects and personal associations rather than lend even a passive support of silence to declarations which we believed to be subversive of order. will pursue the same course again if these questions should ever recur.

"BRYAN STANDS FOR JUSTICE." The best evidence of our capacity to deal with the issues of 1902 or 1904, whatever they may be, is to deal intelligently now with the issues of 1900. On that issue Mr Bryan stands for justice, liberty and the constitution, and since all
