Lively Lumber Business.

While the Lane county sawmills are doing a large business the mills lower down the valley on the Cascade mountains side are actively employed. Here re some lumber items.

"John A Shaw, of the Curtis Lum-Marion County. The saw mill, of that point. which he is manager is employing about 125 men, who are running the mill to its full capacity. It turns out about 60,000 feet of lumber in 10 hours. The market for lumber is good, ready sales being found for all the lumber

the mill can make. "Rumors of a large saw mill for the big Calapcoia timber belt are rife, but no definite information as to the truth of the rumor can be obtained. It is said this fine telt of timber cannot long stand idle. All the mills in the vicinity of Brownsville are working to their fullest capacity, except the Moyer mill, which is being removed, and yet they cannot supply the demands upon them."

The Stranded Lightship.

Portland Telegram, Sept 3. Despite several attempts lately little progress has been made toward the removal of the stranded lightship below Fort Canby, near the mouth of the Columbia. Returned Seasiders who made the rocks the objective Fever-Stricken, Wounded Soldiers point of more than one pilgrimage say the lightship still lays where she was

Miss Lulu Poill man to make a great deal more mining where she has accepted a position as teacher of the Summer Lake school. These extremely rich streaks have She is also a graduate of the Drain

> The presents were numerous and elegant, testifying to the popularity o both bride and groom. Those present

at the ceremony were: Mr and Mrs A D Hyland, Mr and Mrs Grant Hyland, Mr and Mrs Mason Warner, Mr and Mrs Geo Me-Cauley, Mr and Mrs J J Poill, Mr and Mrs W Skeels, Mr and Mrs EJ Frasier, Mr and Mrs J O McCrady, Mr and Mrs Jas Scott, Mr and Mrs A E McFarland, (Palouse, Wash.) Mr and Mrs M F Furguson, Mr and Mrs Chas McFar-Belle Kelsey, Mae Poill; Messrs L A after it is signed by the grower he McCrow, E Upmeyer (Harrisburg),

Our Snipbuilding Timber.

Oregon pine (fir) has come to be recognized the world over as preemmently the timber for spars and ing three pounds. Eli Miller found masts. At Camden, Maine, August 14, the largest schooner in the world was successfully launched. It is the of some pre-historic animal that first schooner to have six masts, and it will be interesting for Oregon people ong ago that even the Indians have to know that those mests are handsome single sticks of Oregon pine, each 119 feet long and 30 inches in diameter in the partners. The foretop mast, jibboom and driven boom are also of Oregon pine. This shows that the value of Oregon timber for shipbuilding purposes is acknowledged. Oregon, with its immense forests of unexceiled timber, certainly has a bright future.

> Threshing in the Palouse country shows a very short crop, probably oneand will grade No 1.
