

PORTLAND MAY JUBILATE

Census Returns Place the Oregon Metropolis at the 90,000 Mark.

CROWDING THE POOR BOERS:

Special to the Guard.

LONDON, September 8.—General Roberts reports that the command under General Hamilton has turned the flank of the Boer army.

This movement has cleared the way for General Buller's advance.

OREGON METROPOLIS CENSUS RETURNS.

Special to the Guard.

WASHINGTON, September 8.—The final tabulation of the work of the census enumerators gives Portland, Oregon, a population of 90,426.

The census of 1890 gave the city a population of 44,041. The gain in ten years is 105 per cent.

TROOPS LEAVING CHINESE PORTS.

Special to the Guard.

BERLIN, September 8.—By mutual agreement of the allied powers all foreign troops have been withdrawn from Amoy and Kulang Fu.

[Amoy is a seaport city of considerable importance 300 miles north of Hong Kong.—Ed.]

JAPS MUST GO HOME.

Special to the Guard.

POCATELLO, Idaho, September 8.—The Japanese laborers in this vicinity have received official notice from their government that they must return to Japan at the earliest practicable date.

Their services are required in Japan for the military branch of the government.

ARBITRATION BOARD APPOINTMENTS.

Special to the Guard.

WASHINGTON, September 8.—Ex-President Cleveland has notified Secretary of State Hay that prior engagements render acceptance of the appointment as a member of the International Board of Arbitration impossible.

Ex-President Harrison notifies the Secretary of his willingness to act as a member of the Board.

McKINLEY DEFENDS THE WAR.

Special to the Guard.

WASHINGTON, September 8.—President McKinley's letter of acceptance has been given to the press.

It is mainly devoted to a review and defense of the Administration consequent upon the Spanish war and the issues brought about by the cession of the Philippines, and the military operations required to subdue the Filipinos and gain possession of the ceded territory.

NEWS EXPECTED FROM CHINA.

Special to the Guard.

WASHINGTON, Sept. 8.—Very important developments in the Chinese tangle are expected to materialize at any moment.

PLAGUE IN SCOTLAND.

Special to the Guard.

GLASGOW, Sept. 8.—All efforts to stamp out the plague appear to be ineffectual.

Eleven additional cases were reported today, some from widely separated portions of the city, showing that it has gained a strong foothold.

WONDERFUL WIRELESS TELEGRAPHY.

Special to the Guard.

LONDON, Sept. 8.—Some very successful experiments in wireless telegraphy are reported today by scientific investigators.

Audible speech was transmitted a distance of eight miles through instruments connected only by the earth.

FATAL INJURY TO BOY.

Caught on to Passing Wagon and Leg Was Torn Off.

ASHLAND, Sept. 7.—Claude Parrish, aged 7 years, son of Mr and Mrs H S Parrish, who recently moved here from Klamath Falls, died this morning as the result of injuries received in a distressing accident last evening. In company with several schoolmates, he was jumping upon and riding on wagons on the main street of the city. In attempting to get on a two-wheeled farm wagon he placed his foot on the brake and missed his footing, his right leg going between the spokes of the wheel, which, before the driver could stop the team, had made a number of revolutions, dragging the boy around with it. The leg was literally wrenched from its socket.

BORN.—September 7, 1900, to Mr and Mrs C C Kauffman, a son.

Salt Monopoly Is Scared.

NEW YORK, Sept. 7.—The English salt trade is excited over the report that an American syndicate covets control of the British salt market, according to a London dispatch to the Herald. Brokers acting in behalf of American principals are said to be quietly at work buying shares of the Salt Union, a combination of producers which enjoys a monopoly of the industry in the United Kingdom with a view to acquiring the majority of the holdings.

Word comes from Liverpool that the American syndicate has already invested \$2,500,000 (\$1,250,000 in Salt Union shares).

We are informed that on the 17th of August, Dean E C Henderson, of this city, who is making a tour of Europe and the Holy Land, was in Palestine viewing the wonders of that famous country. The dean's many friends will be pleased to learn that he is in the best of health and expects to reach home about Oct. 1st.

FATAL DOSE OF POISON.

Mrs Inglerock, a Native Lane County Daughter. Died at Portland from Effects.

Oregonian, September 7. Mrs Nellie Inglerock, wife of C E Inglerock, conductor on the Southern Pacific railway, accidentally took a large dose of carbolic acid yesterday morning at her home, 360 East Davis street, and died in about an hour. She and her husband had just returned from the West Side, where they went to witness the circus parade.

Mrs Inglerock had been in poor health and was taking medicine. She did not see very well without glasses. When they arrived home she went to the shelf where there were two bottles, one containing nitre and the other carbolic acid. She took up one of the bottles, which happened to be the one containing the carbolic acid, and pouring out a spoonful, took the dose at a single swallow. She immediately discovered her mistake, and cried out that she had taken poison, and started to get mustard, but quickly relapsed into unconsciousness. Her sister, Mrs Lizzie Gregory, who has been living with her, was present. As soon as possible Dr Bachelier and Dr Parker were summoned, and put forth every effort to overcome the effects of the poison, but it was impossible to save her life. They could see at the start that she could not recover, but they set out to do so.

Mrs Inglerock was a native of Oregon, aged 22 years. Her parents are Mr and Mrs S E Bristol, Oregon pioneers, living at Pleasant Hill, Lane county, and both are well along in years. Mr and Mrs Inglerock were united in marriage at Eugene a little over a year ago under most pleasing auspices. She was a handsome and highly respected woman, a member of Orpheus temple, Rathbone Sisters, K of T, and of Sunrise Auxiliary to the Trainmen's Union. The relatives at Pleasant Hill have been telegraphed to, and her father and brother are expected to arrive today, but her mother may not come on account of ill health. On their arrival arrangements for the funeral will be made.

Black Butte Quicksilver Mine.

The Portland Telegram has a report of the discovery of a rich quicksilver mine in Jackson county by J Behrman and J Kauffman, two Portland men. It adds:

"Another mine in which these two men are interested, they owning a half interest, is the Black Butte quicksilver mine, in Lane county, 150 miles from this city. Work has progressed further on the Black Butte mine than on the Mountain King, although it is not believed the ore is so rich as in the latter. A fine plant has been installed, consisting of machinery, tramways and 30 buildings. There is a working force of 70 men and the mine is being operated day and night. In the Black Butte mine is found cinnabarite, a species of quicksilver ore found nowhere else except in the Spanish mines. It is particularly rich ore and adds much to the value of the Black Butte property."

Good Timber.

Brownsville Times: H G McKinley, accompanied by three other timbermen, went into the timber belt a few miles east of this city this week, and in township 15 south, range 2 east, he measured off one acre and counted the fir trees thereon. On this one acre were 81 trees, which will average 100 feet in length and 2 1/2 feet in diameter, making about 400,000 feet. This is all fir, and hence does not include a large amount of hemlock. Mr McKinley says this timber has fallen into good hands, and that soon—less than 5 years—big mills will begin the manufacture of lumber and then Brownsville will take on new life.

WHAT A CREAMERY DOES.—Brownsville Times: The first of every month is pay day at the Brownsville creamery, and you never see any disappointed patrons on that day. Last Saturday Mr Brukman paid out \$77.40 for milk delivered during the month of July. Butter fat to the amount of 487 pounds was delivered and 25 cents per pound was paid. Butter has advanced about 30 per cent and the farmer who has a few good cows in this neighborhood need not worry about the failure of his wheat crop—his cows will bring him out all right.

Daily Guard September 8. A PAINFUL ACCIDENT.—W B Isaac, Jr., of San Francisco, assistant engineer in charge of construction of the Mohawk branch of the Southern Pacific, met with a very painful accident yesterday. A heavy stove fell on his left hand nearly severing all the fingers. He was at once brought to Eugene and Dr Paine & Kuykendall attended to the injuries. The middle finger will probably be amputated, but the rest will be saved. Mr Isaac will leave tomorrow for his home, as the work of the engineer corps is practically completed.

BOHEMIA DISTRICT

All Work This Season of a Permanent Character.

THE FUTURE IS PROMISING.

Cottage Grove Nugget, Sept. 7. Notwithstanding that few mills have been in operation in the district this season, the condition of affairs in point of development and rich strikes, are the best in the history of the camp. Property owners seem to be getting down to the realization that the only way to make their property attractive is to let it and bring it to the front, and this can only be done through the medium of systematic development.

At the Helena things present a lively appearance. The new cook house is now completed and the new bunk house will be finished this week. On Helena No. 2 a large force of men are at work on development work, driving two tunnels, which are developing splendid prospects. The upper one is in 75 feet while the other one, which is 150 feet below, is in 30 feet.

The Stocks & Harlow property is booming, on account of the mammoth strike recently made, of which mention has already been made. The tunnel is now in 100 feet and the strike was made at a depth of 30 feet. At 20 feet the pay streak was only a few inches wide, but it has now developed to three feet wide and shows no signs of a decrease in richness. The other day one of the boys who was suffering from a bruised foot took it into his head to put in the day panning, and the result of his day's labor was estimated at something over \$300. At present the mill is not running, but everything is being done to get the property and mill into splendid shape, with plenty of ore on the dump for a long winter's run. Supplies of all kinds are being hauled in and this winter the boys will make a ran that will be a record breaker.

O P Adams, of the Ophir, has completed his assessment work and returned to Cottage Grove this week. Mr Adams is well pleased with the way the Ophir claim has acted this season, and shows some excellent samples of lead ore which he took from the floor of the Ophir claim. The claim in question is said to be on the same vein as the Muick's great base proposition, and the samples shown by Mr Adams resemble those of the Muick very much, and as depth is gained, the prospects are all the more encouraging.

Pingal Hinds, of the Glenwood property, reports his property behaving in a splendid manner this year, and the ore uncovered is of a character that lends encouragement to any miner.

Court House Items.

Mortgage.....\$1550 00

REAL ESTATE TRANSFERS.

Harry A Macy et ux to Jasper Wilkins, interest in 68 1/2 acres in tp 16 s r 3 w; also right of way; \$200.

Elizabeth A Morgan to Peter Coman land in Florence; \$2000.

Wm E Spencer to Mary E Coman and Maria F Carlyon, 319.87 acres in tp 17 s r 3 w; \$100.

MISSING LOCATIONS.

Made Fraction claim, Bohemia district, Chas F Mitchell, locator.

Fraction claim, Blue River district, A Brewbaker et al, locators.

Water right on Quartz creek, Blue River, F L Gilman, A E Wood and D F Gilman, locators.

Location placer ground, Quartz creek, Blue River, F L Gilman, A E Wood and D F Gilman, locators.

PERSONAL.

Daily Guard September 8. J E Ebbert was in the city today. O F Knox came down from Cottage Grove today.

John Downer, the Blue River miner is in Eugene.

Ex-Commissioner W T Bailey was in town today.

Miss Willa Hanna arrived home this afternoon.

Mrs Hugh Gray left today for her home at Albany.

Miss Allie M Smith is home from a vacation at Long Beach.

I L Campbell is home from Portland, coming up this morning.

Mrs B A Henslee, of Vancouver, Wash, returned home today.

Josee Matager, of Dayton, Wash, is visiting at the home of his uncle, F A Rankin, in this city.

Brownsville Times: Mrs J M Howe and daughter, Miss Lois, came down from Eugene Thursday.

Miss Flora Young arrived home today from a visit with her sister, Mrs Nellie Hanson, at Fairhaven, Wash.

R H Shacklett arrived home this morning from an extended business trip to The Dalles and Eastern Oregon points.

Hornce Mann, formerly a Lane county newspaper man, now of Medford, passed through today en route home from Portland.

Miss Clara Pengra, who has been at Point Terrace quite badly afflicted with inflammatory rheumatism, was brought home today.

L Johansen and N Johansen, of Latimer, Iowa, arrived this morning and will join the Danish colony being organized west of this city.

Drain Waterman: Paul Johnson visited Eugene yesterday, to see about making satisfactory arrangements to enter the University there.

Mrs Abner Pickering left for her home at Ft. Hamilton, Neb, after a visit with her brother, Dr W Kuykendall. Her husband is captain in the U S regular army.

Miss Nenna V Paddock, registrar of the University, arrived today. Her many friends will be pleased to learn Miss Paddock has nearly recovered from her recent operation.

Mrs Bertha Emmons, who came down from Alaska with her father, J D Matlock, for a visit, will start in a day or two on her return trip to Dawson City to join her husband.

Hon and Mrs Geo B Dorris left this morning for Jacksonville in response to a message that Mrs C B Hoffman, mother of Mrs Dorris, is quite ill from the effects of a fall a fortnight since.

Mrs M L Cranfill returned Thursday from a summer's visit with her daughter at Grants Pass, Josephine county. Her many friends will be pleased to learn that she comes back much improved in health.

Cottage Grove News.

Leader Sept 7. Mrs D T Aubrey accompanied by her sister, Mrs Siegler, children went to Portland this week.

There will be a mass meeting at the Masonic Hall, Saturday afternoon, at 2 p m for the purpose of organizing a Bryan-Stevenson Campaign Club.

Clarence and Charley Markley, of Texas are in town this week, visiting their father F J Markley and other relatives.

Mr Frank Whipple, one of our most prominent young men, left this week for Golden, Colorado, where he will attend the school of mines, at that place. He will stop over at Portland to take in the Carnival. His many friends wish him success.

Mr H H Veach returned home Sunday afternoon from Salt Lake City where he attended the Grand Lodge of the Woodmen of the World. His family who have been visiting at Corvallis during his absence returned home with him. Henry reports a pleasant trip.

The Telephone Co have made arrangements to move the telephone office from Benson's drug store to Phillips & Davidson's hardware store. Miss Minnie Foss has been appointed agent. Miss Foss is one of our most popular young ladies and her many friends will be glad to learn of her success in securing the position.

Railroad Talk.

Brownsville Times. It is reported that representatives of the great timber interests up the Calapoosia river, and of the Southern Pacific Railroad Company, have spent considerable time during the past summer seeking the most favorable route for a railroad from Brownsville to a point up the river where a big saw mill can be operated. The report receives much credit from the fact that it is known that men have been along the river evidently for such a purpose. Although men sent out as these men have been, do not talk, their actions speak about as loud as words, and no one will be surprised if active operations to put some of these immense forests on the lumber market are commenced at an early day.

A GOOD RAIN.

Crop Conditions and Its Effect on Them.

Daily Guard September 8. The rain of the past 48 hours has been very satisfactory, if it ceases at the right time. So far there has been nothing to damage hops or fruit, but has inconvenienced a few campers who are moving to the hop yards early. Farmers in town today state that solid ground is dampened about eight inches, and plowed ground deeper. They are now ready for plowing and will begin with the first bright day. Despite the unsatisfactory conditions of the present season and harvest, a larger acreage of grain will likely be sown the coming year than than was last year.

A majority of the hop yard owners had expected to be picking by Monday, and have everything in readiness. With the first peeping of the sun from behind the clouds they will commence work and the finest hop crop of Lane county in years will be harvested. As is usual at picking time the flurry of hop talk has subsided and growers and buyers alike are awaiting the harvest. With the liberal prices offered for contracts up to a week ago, going in many instances to 13 and 14 cents and in one or two cases to 15 cents, growers have reason to anticipate a profitable price for their product, at least equalling the top notch above named. One prominent Eugene buyer has said that he does not consider an advance of 5 cents over that price an impossibility, in fact probable.

Junction City News.

Times, Sept. 8. Six candidates for city marshal and two months yet before election.

Miss Etha Williams, who has been visiting in the city during the past week, returned to her home in Eugene Sunday.

Baxter Howard has an offer of a good job in the Booth-Kelly mill at Wendling and expects to leave for that place in about two weeks.

H C Mahon has received and accepted a lucrative position with Lang & Co, of Portland, and he left for that city Monday. During the season he will travel on the road buying fruit for the firm.

Marvin Smith, road supervisor, will commence the fall road work next Monday. The gravel loader will be placed in the Harpole pit, and the Samuel road will be graded, after which all the Long Tom roads will be attended to.

Walter Blachley came in from the mountains Saturday and left Sunday for Roseburg. He had business before the land office and on Monday was labor day, the office was closed and he had to remain over another day. He reports the woods full of timber cruisers on the Coast range.

W L Houston left Tuesday for Heppner where he has secured the position as manager of the Heppner Flouring Mills. Mr Houston resided at Heppner for a number of years and he is perfectly familiar with the field of his labors. He was accompanied by his little son Willard.

Joseph Barrow, who works at the Wolfe Bros' shingle mill on Lake creek, met with an accident Wednesday which caused the loss of two fingers on his right hand. He came to town Thursday and Dr Lee rendered the usual assistance and he returned home feeling not to monkey with a saw that makes 4000 revolutions a minute.

Profit in Stockraising.

Chris Domeyer, who lives part way up the mountain at the old Cogswell stock ranch on the McKenzie, understands the secret of making a big profit off his cows and calves with little work. He has a good mountain outrange, and turns his cows and calves out to range together without interference of the milker.

After running together through the summer the calves make extra fine veal. A six months old calf bought by Watkins & Miller and dressed for their market, Friday, netted Mr Domeyer \$25.25. Ordinarily the butter made from the cow during the summer together with the calf at six months of age, would not bring that amount, to say nothing of the labor expended by the housewife making the butter. Of course such profits on stockraising are possible only where there is good outrange. There are hundreds of such ranges in Lane county that are not utilized.

WRITING THE DELINQUENT TAX LIST.—The work of writing the delinquent tax list has begun, Merritt Davis is writing the list for the sheriff, and Deputy Clerk Knox for the clerk. The work is in charge of Deputy Sheriff Fred Flak.

DISMISSED.—The case against Ernest Nicholson, of Mohawk, charged with killing pheasants out of season, tried before Justice Wintermeter was dismissed.
